## UNITED STATES BANKRUPTCY COURT DISTRICT OF MAINE

In re:

# MONTREAL MAINE & ATLANTIC RAILWAY, LTD.

Bk. No. 13-10670 Chapter 11

Debtor.

## POST-HEARING BRIEF OF NEW BRUNSWICK SOUTHERN RAILWAY COMPANY LIMITED AND MAINE NORTHERN RAILWAY COMPANY IN SUPPORT OF THE ALLOWANCE OF THEIR PROOFS OF CLAIM

New Brunswick Southern Railway Company Limited ("<u>NBSR</u>") and Maine Northern Railway Company ("<u>MNR</u>" and together with NBSR, the "<u>MN/NB Railways</u>") hereby submit this post-hearing brief in support of the allowance of the proofs of claim they filed in the chapter 11 case of the debtor, Montreal Maine & Atlantic Railway, Ltd. ("<u>MMA</u>" or the "<u>Debtor</u>").

## **INTRODUCTION**

The legal arguments advanced by the Trustee in his Objection to the proofs of claim filed by the MN/NB Railways [D.E. 1826], in his Reply in support of the Objection [D.E. 1878], and in his closing argument at trial are *wrong as a matter of law*, and are completely at odds with the First Circuit's opinions in the *Boston & Maine* case and the District Court's opinion, on remand, confirming Boston & Maine's plan of reorganization. Moreover, the Trustee's assertions regarding the relevant facts in this matter are *clearly erroneous* and without any evidentiary support.

Based upon controlling law in the First Circuit, and the uncontroverted evidence presented at the hearing on this matter, the Court should enter an order finding that the claims of the MN/NB Railways for freight services provided to the Debtor within six months prior to the commencement of the Debtor's chapter 11 case qualify as "six-month" claims and are entitled to

priority under section 1171(b) of the Bankruptcy Code because the services were necessary to the operation of the Debtor's railroad and were provided with the expectation that payment would be made from the Debtor's current operating revenue, rather than in reliance upon the Debtor's general creditworthiness.

#### **DISCUSSION**

## I. <u>The Trustee Has Misstated the Law Governing this Dispute</u>

## A. <u>The Decisions of the Court of Appeals and the District Court in the</u> Boston & Maine Case Establish Beyond Doubt that Interline Claims Qualify as Six-Month Claims

For reasons which we cannot comprehend, the Trustee has continued to advance the argument that in the *Boston & Maine* case, the First Circuit held, as a matter of law, a railroad's claims arising from the provision of interline freight services do not qualify for status as "six-month" priority claims. Nothing could be further from the truth. As we explained in our Response to the Trustee's Objection [D.E. 1855] (the "<u>MN/NB Railways' Response</u>"), the *per diem claims* asserted by the interlining railroads in the *Boston & Maine* case (which the Trustee concedes are functionally equivalent to the interline claims asserted by the MN/NB Railways in this case) were recognized as six-month priority claims and were paid in full, in cash, on the effective date of the debtor's plan of reorganization. *See* MN/NB Railways' Response at pages 6-8. That should have put the Trustee's argument to rest. Nonetheless, because the Trustee continues to advance his erroneous reading of the *Boston & Maine* decisions, a brief review of those decisions is warranted.

## 1. <u>Boston & Maine I Dealt Only With the Timing of Payment, Not</u> <u>Priority under a Plan of Reorganization</u>

The sole basis for the Trustee's assertion that, as a matter of law in this Circuit, interline claims cannot qualify as "six-month" claims, is the First Circuit's decision in *In re Boston* &

#### Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 3 of 21

*Maine Corp.*, 600 F. 2d 307 (1st Cir. 1979) ("*Boston & Maine I*"). *Boston & Maine I* did not, however, address in any way the question of whether interline freight claims qualify as sixmonth claims. *Boston & Maine I* dealt *only* with the question of the timing of the payment of such claims - whether pre-petition per diem claims were required to be paid immediately at the outset of the reorganization or whether the reorganization court had discretion, instead, to defer payment to a later point in the proceeding. The First Circuit held that the reorganization court had such discretion, and had not abused its discretion in refusing to order immediate payment of the per diem claims. *Id.* at 311-312.

In reaching its conclusion that *immediate* payment of the per diem claims was not required, the Court noted that the Seventh Circuit had come to the opposite conclusion in *Chicago, Rock Island and Pacific Railroad Co. v. Atchison, Topeka & Santa Fe Railway Co.*, 537 F. 2d 906 (7th Cir. 1976) ("*Rock Island*") and that in enacting the new Bankruptcy Code pursuant to the Bankruptcy Reform Act of 1978, Pl. No. 95-598, Congress had rejected the Senate version of the bill that would have codified the Seventh Circuit's holding in *Rock Island*. As the First Circuit explained in *Boston & Maine I*:

... Congress expressly rejected a draft that would have codified the Rock Island rule. Congress chose instead to place the *timing of payment* of per diem claims exclusively in the discretion of the reorganization court. Thus, the resolution of conflicting policies we find implicit in the old Act is explicit in the new.

*Id.* at 313 (emphasis added and internal citations omitted).<sup>1</sup>

<sup>&</sup>lt;sup>1</sup> In his Reply (at page 8), and in his opening statement at the hearing, the Trustee cited a statement from *In re McLean Indust., Inc.*, 103 B.R. 424, 426-27 (Bankr. S.D.N.Y. 1989) referring to Congress' rejection of the proposal that would have required *immediate* payment of per diem claims, as evidence that the claims of the MN/NB Railways "are *per se* not entitled to 1171(b) priority status." Similar to his misreading of the First Circuit's decision in *Boston & Maine I*, the Trustee has confused the issue of *immediate* payment of interline claims with the issue of the priority to which those claims are entitled under section 1171(b) of the Bankruptcy Code. As explained by Judge Coffey of the Seventh Circuit in *Boston & Maine Corp. v. Chicago Pacific Corp.*, 785 F. 2d 562, 568-69 (7th Cir. 1986), the case relied upon by the bankruptcy court for its statement in *McLean Industries*:

## Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 4 of 21

Simply put, the only issue addressed by the First Circuit in *Boston & Maine I* dealt with the timing of the payment of per diem claims. The issue of whether the per diem claims would be entitled to priority status as six-month claims under such plan of reorganization as might eventually be proposed by the Boston & Maine was not addressed, nor even mentioned, in the First Circuit's opinion in *Boston & Maine I*.

## 2. <u>Boston & Maine II Established that Interline Claims are Entitled to</u> <u>Priority as Six-Month Claims</u>

The question of whether per diem, and other interline claims, were entitled to treatment as six-month priority claims under Boston & Maine's plan of reorganization was addressed by the First Circuit in its second decision in the Boston & Maine case, *In re Boston & Maine Corp.*, 634 F. 2d 1359 (1st Cir 1980), *cert denied*, 450 U.S. 982, 101 S. Ct. 1518 (1981) ("*Boston & Maine II*"). The interlining railroads which sought six-month priority status for their per diem claims included Chesapeake and Ohio Railway Company, Baltimore and Ohio Railway Company, Western Maryland Railway and Canadian Pacific Ltd. (the "B & M Interline Carriers"). As noted by the First Circuit:

The claims for which priority is asserted under the "Six Month Rule" do not exceed \$3,000,000 and include per diems for the period commencing September 13, 1969; ...

*Id.* at 1365.

In addressing the per diem claims of the B & M Interline Carriers, the First Circuit specifically identified *"interline claims"* as the type of claim entitled to priority, referring to the possible stoppage of traffic interchange as one of the *"disastrous consequences"* of failing to pay

Congress rejected our holding that the rules of the ICC, rather than principles of bankruptcy, should govern the question of *whether pre-reorganization per diem charges should be paid immediately*. (emphasis supplied).

The Senate provision rejected by Congress in enacting the Bankruptcy Code dealt only with the issue of whether per diem charges had to be paid *immediately* during the course of the reorganization. It did not address the priority to which such claims were entitled under a plan of reorganization.

## Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 5 of 21

such claims. *Id.* at 1377-78. The Court also cited with approval a number of cases which recognized *interline freight claims* as quintessential examples of six-month claims. *See Southern Railway v. Flournoy*, 301 F. 2d 847, 853-54 (4th Cir. 1962); *Finance Co. vs. Charleston*, 62 F. 205 (4th Cir. 1984); *In re Tennessee Central Ry.*, 316 F. Supp. 1103 (M.D. Tenn. 1970), *vacated on other grounds*, 463 F. 2d 73 (6th Cir. 1972).

The Court held that the \$3,000,000 of per diem claims asserted by the B & M Interline

Carriers were entitled to six-month priority status, so long as each claim:

(1) represents a current operating expense necessarily incurred, (2) was incurred within six months before the reorganization petition was filed, and (3) the goods or services were delivered in the expectation that they would be paid for out of current operating revenues of the railroad, and not in reliance on the road's general credit ...

Id. at 1378.

There is simply no question that the First Circuit found in *Boston & Maine II* that the per diem claims asserted by the B & M Interline Carriers were entitled to treatment as priority claims as long as they met the characteristics the Court had identified. The Trustee's arguments to the contrary are nonsense.<sup>2</sup>

## 3. <u>The Boston & Maine District Court Decision Confirmed the</u> <u>Treatment of the Interline Per Diem Claims as Six-Month Priority</u> <u>Claims</u>

Despite the First Circuit's clear holding in *Boston & Maine II* that the \$3,000,000 of per diem claims of the B & M Interline Carriers were entitled to be treated as priority claims so long as they satisfied the requirements laid out by the Court, the Trustee contends that such claims

 $<sup>^{2}</sup>$  At the hearing, the Trustee cited *In re Bangor & Aroostook Railroad*, 320 B.R. 226 (Bankr. D. Maine 2005), in support of his argument that interline claims do not qualify for 1171(b) priority status. In that case, the Court held that interline balances owed to participants in the Interline Settlement System were not held in trust and thus payments made within 90 days prior to bankruptcy could be subject to challenge as preferential transfers. The decision did *not* mention nor address in any way whether interline claims might qualify for status as six-month priority claims.

#### Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 6 of 21

were not recognized as six-month priority claims in the decision of the District Court, on remand, confirming Boston & Maine's plan of reorganization. Once again, the Trustee is wrong.

In its opinion confirming Boston & Maine's amended plan of reorganization, the District Court found that the \$3,000,000 in per diem claims of the B & M Interline Carriers referenced in *Boston & Maine II* were to be treated as six-month claims. *In re Boston & Maine Corp.*, 46 B.R. 930, 941 (D. Mass. 1983). At issue, however, was the additional claim asserted by certain of the B & M Interline Carriers that they were entitled to post-petition interest on their claims. The District Court noted that "in accordance with the principles [of the First Circuit's opinion] in *Boston & Maine*," the principal amount of each allowed six-month claim was to be paid in full, in cash, on the effective date of the Boston & Maine plan. *Id.* at 956. The District Court found no support, however, in the First Circuit's decision in *Boston & Maine II* for the interest claims asserted by the B & M Interline Carriers:

It is clear that neither Order No. 637 [providing for payment in full of the per diem claims] nor the decision of the First Circuit in *Boston & Maine*, *supra*, supports the interest claims. The question of entitlement to interest was not considered by the Court of Appeals, nor was it considered by this court.

*Id*. at 956.

Although the District Court denied the allowance of post-petition interest, the per diem claims asserted by the B & M Interline Carriers were recognized as six-month priority claims and were paid in full as required by the First Circuit's opinion in *Boston & Maine II*. The Trustee once again has simply misread the case.<sup>3</sup>

<sup>&</sup>lt;sup>3</sup> In his closing argument at the hearing, the Trustee alluded to the fact that in the District Court's decision, the Court noted that under the debtor's plan, the "six-month" claims were accorded a priority junior to administrative claims and secured tax claims, but senior to all other claims, including those of bondholders. Hearing Tr. at page 124, line 21 - page 125, line 1. Although the placement of six-month claims below other administrative expense claims in the plan was clearly not consistent with the First Circuit's holding in *Boston & Maine II* which required equality of treatment as between six-month claims and administrative expense claims, such placement was irrelevant, and there was no reason for the B & M Interline Carriers to question the placement of their claims, since the Boston & Maine

## B. <u>The Trustee has Misconstrued What Must Be Shown to Establish that</u> <u>the Services Were Necessarily Incurred</u>

The Trustee's assertions as to what must be shown to establish that the interline freight services provided to the MMA were "necessarily incurred" are equally flawed. The Trustee argues that the services were not necessary because MMA could have chosen alternative routes to carry its shipments to their final destination, and thus the refusal to provide such services would not have resulted in the complete shutdown of the railroad. The Trustee argues further that because the MN/NB Railways were required to accept the interchange of traffic from the MMA, their claims do not qualify, as a matter of law, for priority status as six-month claims under section 1171(b).

The Trustee is wrong on both points. The test is not whether the individual claimant has the power to shut down the operation of the railroad, but whether the claim in question falls within a *class* of claims which are indispensable to operation of the business. The First Circuit's opinion is very clear on this point. In addressing the Supreme Court's holding in *Miltenberger v. Logansport, C. & S.W. Ry.*, 106 U.S. 286, 1 S. Ct. 140, 27 L. Ed. 117 (1882), the First Circuit observed that:

The Court's rationale excludes the inference that only those creditors are entitled to priority of payment who demand immediate payment as a condition of continuing to supply a service or commodity of which they are monopolists. The Court was defining the *classes* of claims payment of which was indispensable to the business of the railroad ...

Id. at 1377 (emphasis in original; footnotes omitted).

plan specifically provided that the six-month claims were to be paid in full, in cash, on the effective date of the plan, as was the case with administrative expense claims. For our purposes, what is significant about the Boston & Maine plan confirmed by the District Court is that, consistent with the First Circuit's holding in *Boston & Maine II*, it recognized the per diem claims of the interlining railroads as six-month claims entitled to priority over the claims of unsecured creditors.

#### Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 8 of 21

The First Circuit went on to note specifically that interline claims constituted one of the *classes* of claims that qualified for the priority:

The [Miltenberger] Court's depiction of the disastrous consequences of failing to pay labor claims – a work stoppage – or *interline claims* – a stoppage of traffic interchange – is directed to restricting the *class of claims* entitled to priority of payment to claims for those goods and services that are indispensable to the continued performance of the transportation service. ... The test is not whether the claimant has the naked power to exert economic duress, but whether the expenses have the *characteristics of those that the receiver pays from revenue as expenses of administration....* 

Id. at 1377-78 (emphasis supplied; footnotes omitted).

There is no question, as the Court in *Boston & Maine II* specifically recognized, that the interchanging of freight among railroads is "indispensable to the continued performance of transportation services" and thus interline claims of the type asserted by the MN/NB Railways in this case qualify for status as six-month priority claims. The fact that alternative routes may have been available (albeit less economical and less practicable) is of absolutely no consequence.

The First Circuit's opinion in *Boston & Maine II* also makes short shrift of the Trustee's second argument – that the claims asserted by the MN/NB railways do not qualify for priority status because the MN/NB Railways were required under applicable provisions of federal transportation law to accept the interchange of traffic from the MMA. That has long been the case and was recognized as such with respect to the per diem claims at issue in the *Boston & Maine* case. *See Boston & Maine*, 634 F. 2d at 1362 (" ... the interlining of freight cars is mandatory under the Interstate Commerce Act, 49 U.S.C. §§ 1 (4), (10), (11), (14), (15), and (17)). Notwithstanding the fact that the interlining railroads were required under the Interstate Commerce Act to loan their railcars to the Boston & Maine, their per diem claims were, nonetheless, recognized as being entitled to priority status as six-month claims. As the First

Circuit noted, "the test is not whether the claimant has the naked power to exert economic duress." *Id.* at 1378. The Trustee's contention that the claims of the MN/NB Railways are not entitled to priority status because they were required to accept the interchange of freight traffic is entirely without merit.<sup>4</sup>

## C. <u>The Trustee Has Misconstrued the Standard for Determining</u> <u>Whether Services Were Provided in the Expectation that Payment</u> <u>Would be Made from Current Operating Revenue, Rather Than in</u> <u>Reliance on the Debtor's General Credit</u>

The Trustee contends that the extension of payment terms establishes, as a matter of law,

that the services furnished by the MN/NB Railways were provided not with the expectation that

payment would be made from current operating revenue, but rather in reliance upon MMA's

general creditworthiness. As the Trustee put it during closing argument:

If the credit terms don't matter, if the objective indication of an extension of credit and a reliance on creditworthiness is not that you've extended 60-75 day terms, then there is no standard. I have no idea what the standard would mean, if it doesn't matter what your credit terms are.

Transcript of November 20, 2015 Hearing ("Hearing Tr.", a copy of which is attached as Exhibit

<u>A</u>) at page 128, lines 4-9.

The Trustee's confusion notwithstanding, the standard is not whether payment terms

were extended to the debtor. If that were the standard, there would be no six-month priority rule.

The First Circuit articulated the standard with great specificity in its opinion in Boston & Maine

*II*:

... when the time comes to determine membership in the class it will be for the reorganization court to determine ... whether the non-payment reflects an intentional extension of credit to the railroad, or the intervention of the reorganization petition before expiration of the

<sup>&</sup>lt;sup>4</sup> Although the MN/NB Railways were required to accept the interchange of freight traffic from the MMA, they had the right to require advance payment as a condition of doing so if MMA failed to pay freight charges when due. *See The National Railroad Passenger Corporation – Conveyance of Boston & Maine Corp. ordinary billing and payment period, or some non-contractual indulgence or inadvertence on the part of the claimant, or deferment of payment on the part of the railroad; and *whether*, *if the transaction giving rise to the claim had any credit term, it was compatible with a general expectation of payment from current receipts or indicated reliance on the railroad's general credit.* 

Id. at 1379-80 (emphasis supplied; footnotes omitted).

Clearly, the mere extension of payment terms is not the driving factor in the analysis. The answer must be derived from the evidence of the parties' expectations and understanding regarding the source of payment. Were the payment terms provided to the debtor "*compatible with a general expectation of payment from current receipts*?" In this case, as discussed below, the uncontroverted evidence establishes beyond doubt that the MN/NB Railways provided interline freight services to the MMA in the expectation that payment would be made from MMA's current receipts, as and when collected.

## II. <u>The Evidence Establishes that the Interline Freight Claims of the MN/NB</u> <u>Railways Qualify as Six Month Priority Claims</u>

## A. <u>The Interline Freight Services Were Necessary for the Operation of</u> <u>MMA's Business</u>

Although the Trustee attempted to downplay the importance of MMA's interchange connection with the MN/NB Railways, the Disclosure Statement he filed and served upon all creditors in this case, tells the true story. As described in the Disclosure Statement, MMA'a rail system:

... was a substantial component of the transportation systems of Northern Maine, Northern New England, Quebec and New Brunswick. The System provided:

- (a) The shortest rail transportation route between Maine and Montreal and a critical rail artery between Saint John, New Brunswick and Montreal;
- (c) Outlets for major producers of paper, lumber, wood and agricultural products in eastern and northern Maine; and

(d) In-bound transportation for chemicals and other products used by paper producers and consumers in Maine

First Amended Disclosure Statement for the Trustee's Plan of Liquidation Dated July 7, 2015 [D.E. 1497] (the "<u>Disclosure Statement</u>") at page 13 (emphasis supplied).<sup>5</sup>

The importance to MMA's business of the "critical rail artery" terminating at the oil refineries in Saint John, New Brunswick was explained in the Disclosure Statement in the following way:

In the two years leading up to the commencement of the Chapter 11 case, the Debtor had benefitted from the dramatic increased use of trains to move oil from the central and western regions of the United States, specifically, the Bakken oil fields in North Dakota, to refineries in the east .... Prior to the Derailment, the Debtor had been hauling about 500,000 barrels of oil monthly through Quebec and Maine. Due to this business, the Debtor enjoyed a significant increase in gross revenue, and for a short time, positive net operating income, although needed capital expenditures remained deferred and unfunded.

Disclosure Statement at pages 19-20.

Ian Simpson, the MN/NB Railways' General Manager, testified at the hearing regarding the freight services provided to the MMA.<sup>6</sup> Mr. Simpson confirmed the importance to the MMA of the critical rail artery between Montreal and Saint John, New Brunswick, which required the interchange of traffic between the MMA and the MN/NB Railways, characterizing it as the most direct, economical and practical route for the shipment of oil to refineries in Saint John. Hearing Tr. at page 97, line 19 – page 98, line 5, and page 104, line 14 – page 106, line 17.

<sup>&</sup>lt;sup>5</sup> The Court may take judicial notice of the Trustee's Disclosure Statement in this case. Fed. R. Evid. 201(c).

<sup>&</sup>lt;sup>6</sup> Mr. Simpson described the process involved in the interchange of freight traffic between the MMA and the MN/NB Railways. With respect to traffic carried by the MMA to an interchange point with the MN/NB Railways, Mr. Simpson explained that the railcars were decoupled from MMA's locomotive, hooked on to an MN/NB Railway locomotive and carried to the final destination by MN/NB Railway personnel. Hearing Tr. at page 94, lines 5-23. The Trustee's contention in his Reply (at pages 7-8, ¶ 11) that the interchange did not involve the provision of services, but rather merely granted permission for the MMA to pass over the MN/NB Railways tracks for a fee is factually incorrect.

## Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 12 of 21

Mr. Simpson testified further that the MMA had made substantial efforts to attract business in Saint John that would be serviced through its interchange with the MN/NB Railways. Sales trips had been made by MMA's President, Bob Grindrod, its Chairman, Ed Burkhardt, and its Vice President of Sales and Marketing, Joseph McGonigle for the purpose of developing business in Saint John. Hearing Tr. at page 94, line 24 – page 97, line 4.

The testimony at the hearing established that the inability of the MMA to interchange traffic with the MN/NB Railways on the "*critical rail artery*" between Saint John, New Brunswick and Montreal, would have had a significant adverse impact on MMA's operations, including, among other things, the loss of business with the various paper companies owned by JD Irving, Limited, which were among the largest customers of the MMA, and a substantial reduction in revenue generated from the shipment of oil to the refineries in Saint John. Hearing Tr. at page 75, lines 2-13; page 94, line 24 – page 97, line 4; page 110, lines 11-20. There was no evidence to the contrary.

The record in this case could not be more clear. The interline freight services provided by the MN/NB Railways to the Debtor were necessary for the operation of the Debtor's business.

## B. <u>The MN/NB Railways Provided the Services With the Expectation</u> that Payment Would be Made from Current Operating Revenue

## 1. <u>The Uncontroverted Evidence Presented at the Hearing</u> Established the Expectation and Understanding of the Parties

The evidence presented at the hearing established that from the inception of their business relationship with the MMA in 2003, the MN/NB Railways were not willing to rely upon MMA's general creditworthiness in providing freight services to it. Hearing Tr. at page 43, line 24 – page 46, line 22. In order to avoid taking on any credit risk, Karl Hansen, the General Manager of Corporate Credit and Finance for J.D. Irving Limited, the parent of the MN/NB

Railways, created what he referred to as the "swap" arrangement with the MMA, pursuant to which on a weekly basis, MMA would simultaneously exchange with the MN/NB Railways and their affiliated paper companies (the "Irving Paper Companies"), who were among the largest customers of the MMA, wire transfers of the amounts each owed the other. Mr. Hansen's testimony at the hearing was clear regarding the reasons for entering into this arrangement with the MMA:

- Q. ... [w]hat was the reason for entering into this particular agreement with the MMA?
- A. Well, I was determined I was not going to take a credit risk, I was not relying on their credit to insure we got paid.

Hearing Tr. at page 46, lines 18-22.

The arrangement worked well for a number of years, primarily because the amounts owed to the MMA by the Irving Paper Companies each week exceeded the amounts owed by the MMA to the MN/NB Railways. Hearing Tr. at page 46, lines 5-16. Thus, the Irving Paper Companies were, in effect, providing to the MMA on a weekly basis the cash (i.e. current operating revenue) with which the MMA was able to satisfy its obligations to the MN/NB Railways.

With the increase in volume of oil shipments carried by the MMA, and interchanged with the MN/NB Railways for ultimate delivery to the oil refineries in Saint John, New Brunswick, the situation changed dramatically. Beginning in 2012, the amounts owed by the MMA for interline freight services provided by the MN/NB Railways began to substantially exceed the amounts owed by the Irving Paper Companies to the MMA. Hearing Tr. at page 50, line 17 – page 51, line 2. As a consequence, MMA proposed to modify the payment arrangement with the MN/NB Railways. Pursuant to MMA's proposal, amounts owed to the MN/NB Railways for

interline freight charges incurred in connection with oil shipments would be carved out of the swap arrangement, and instead, those charges would be paid to the MN/NB Railways upon MMA's receipt of payment from the Interline Settlement System (the "<u>ISS</u>") of the amounts owed to the MMA for such shipments. Hearing Tr. at page 51, line 13 – page 52, line 23; page 54, line 10 – page 57, line 20; <u>Irving Exhibit 5</u>, E-mail from Robert Grindrod to Ian Simpson, dated June 4, 2012.

The MN/NB Railways accepted MMA's proposal. Irving Exhibit 7, E-mail from Joanne

Kelter to Donald Gardner, dated July 26, 2012. Karl Hansen explained the reasons for doing so:

... [o]nce I was briefed a bit on what this ISS was I felt comfortable enough that moneys would be coming into MMA without any hiccups, so to speak, and that shortly thereafter within a matter of days I would be paid our share.

- Q. And when you refer to our share what are you referring to?
- A. The monies owed by MMA for the transportation of oil on our lines.

Hearing Tr. at page 59, line 22 – page 60, line 5.

Testimony from both Karl Hansen and Ian Simpson confirmed that from July 2012, the

MN/NB Railways relied upon the agreement they had reached with the MMA in continuing to

accept the interchange of oil shipments. Mr. Hansen testified as follows:

- Q. Based upon the agreement that is referenced in the emails that you've just identified as well as your understanding of the agreement that was reached between the MMA and the Irving Railroads, what was New Brunswick Southern Railways' expectation regarding payment by MMA for freight services provided in connection with oil shipments?
- A. Our expectation was that we would be paid immediately after they were paid from the ISS system.

Hearing Tr. at page 63, lines 18-25.

Mr. Hansen also made it clear that the MN/NB Railways did not, at any time, rely upon

MMA's general creditworthiness:

- Q. Mr. Hansen, in providing freight services in connection with the interchange of traffic with the MMA did the Irving Railroads rely upon MMA's general creditworthiness?
- A. Absolutely not.
- Q. What did the Irving Railroads rely upon?
- A. We relied upon them being paid out of the ISS system, which I felt was secure, and that meant I would be paid shortly thereafter.

Hearing Tr. at page 67, line 19 – page 68, line 1.

Mr. Simpson corroborated Mr. Hansen's testimony explaining that:

 $\dots$  we expected prompt payment, because when ISS – when they received their money from the ISS, they were receiving their share and our share, and that's all we were looking for. When they got paid, we were to be paid.

Hearing Tr. at page 98, line 23 – page 99, line 2.

The record in this case could not be more clear. The evidence presented by the MN/NB

Railways established that:

- From the inception of their business relationship, the MN/NB Railways did not rely upon MMA's general creditworthiness in providing freight services to the MMA
- The weekly swap arrangement between the MMA and the MN/NB Railways on non-oil shipments was put in place by the MN/NB Railways to avoid credit risk and, in effect, provided the MMA with the cash (i.e. current operating revenue) necessary to satisfy its obligations to the MN/NB Railways
- The agreement and expectation of the MN/NB Railways and the MMA with respect to interline freight charges incurred in connection with the interchange of oil shipments was that MMA would pay the MN/NB Railways immediately upon MMA's receipt of payment from the ISS of amounts owed to it for such shipments.

## 2. <u>The Trustee's Contention that the MN/NB Railways Relied</u> <u>Upon MMA's General Creditworthiness in Providing Interline</u> <u>Freight Services Is Without Any Factual Support</u>

In his Objection, the Trustee asserted two grounds in support of his contention that the MN/NB Railways relied upon MMA's general creditworthiness in providing it with interline freight services. <u>First</u>, he argued that the decision of the MN/NB Railways to opt out of participation in the ISS demonstrated their reliance upon MMA's general credit. Objection at pages 10-11. <u>Second</u>, he contended that the MN/NB Railways "could not possibly have been looking to the Debtor's operating revenues for payment" because those revenues were subject to a security interest held by Wheeling & Lake Erie Railway Company ("<u>Wheeling</u>") as collateral for a \$6 million line of credit, and all receivable collections, upon receipt, were remitted to Wheeling to pay down the line of credit. *Id.* at page 11.

There is, however, absolutely no evidence to support either contention. With respect to the decision of the MN/NB Railways not to participate in the ISS, the testimony of Messrs. Hansen and Simpson established that the decision was not influenced in any way by an evaluation of MMA's creditworthiness. Hearing Tr. at page 42, lines 8-11 and page 93, lines 23-25. Participation in the ISS requires expertise and resources that the MN/NB Railways did not possess and would have resulted in a significant duplication of effort with other railroads which were members of the ISS and with which the MN/NB Railways interchanged traffic. *Id.* at page 92, line 1 – page 93, line 22. The creditworthiness of the MMA was not a factor.

The Trustee's second contention, that the MN/NB Railways could not have expected to be paid from MMA's current receipts because all collections of MMA's accounts receivable were immediately remitted to Wheeling to pay down its line of credit, is patently false. Accounts receivable collections were not remitted to Wheeling for payment against the line of credit.

## Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 17 of 21

During the period from January 1, 2011 through the date MMA filed its chapter 11 petition, it generated approximately \$85,533,000 in revenue. *See* Montreal Maine & Atlantic Railway Ltd. Statement of Financial Affairs [D.E. 216]. From June 15, 2011 through August 6, 2013, the total principal amount paid to Wheeling in reduction of its loan was \$2,400,000. *See* <u>Trustee's Exhibit B</u>, Wheeling Line of Credit Activity - June 15, 2011 through August 6, 2013. Based upon this evidence, even the Trustee conceded at trial that MMA had "complete dominion over that money." Hearing Tr. at page 127, lines 20-22.

Given that MMA had complete dominion and control over its accounts receivable collections from the ISS, and putting aside the swap arrangement for payment of non-oil shipments pursuant to which the Irving Paper Companies controlled the cash used by MMA to satisfy its obligations to the MN/NB Railways, the Trustee is left only with the argument that the mere existence of Wheeling's security interest precluded any reasonable expectation on the part of the MN/NB Railways that they would be paid out of current operating revenue. No evidence was offered by the Trustee as to why the existence of Wheeling's security interest, even if it was listed in a Dun & Bradstreet Report obtained by the MN/NB Railways,<sup>7</sup> would have precluded the MN/NB Railways from expecting to receive payment for such freight charges from funds received by MMA from the ISS. The question is not what would have transpired if the MMA had defaulted on its loan agreement and Wheeling had elected to exercise remedies as a secured creditor. The question is whether the MN/NB Railways provided interline freight services with the expectation that payment would be made from current operating revenue. The uncontroverted evidence presented at the hearing established that freight services were provided with that expectation.

<sup>&</sup>lt;sup>7</sup> Hearing Tr. at page 84, line 5 – page 85, line 9.

## Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 18 of 21

Moreover, consistent with the expectation and understanding of the parties, the MN/NB Railways did, in fact, receive payment for oil shipments from funds MMA collected from the ISS until MMA was forced to file its chapter 11 petition following the derailment at Lac Megantic, Quebec in July 2013. Hearing Tr. at page 64, line 1 – page 66, line 2; <u>Irving Exhibit 11</u>, Montreal Maine & Atlantic (MMA) Swap History. Such payments were typically made within a day or two of MMA's receipt of payment from the ISS, consistent with the agreement and expectation of the parties. *See* <u>Irving Exhibit 6</u>, E-mail from Donald Gardner to Ryan Ellis, dated July 26, 2012; <u>Irving Exhibit 8</u>, E-mail exchange between Ryan Ellis and Donald Gardner, dated August 30, 2012; <u>Irving Exhibit 9</u>, E-mail exchange between Donald Gardner and Ian Simpson, dated January 3, 2013; <u>Irving Exhibit 10</u>, E-mail from Donald Gardner to Ian Simpson, dated January 7, 2013.

Aside from the complete lack of evidence to support his contention that the MN/NB Railways could not have expected to be paid from MMA's current receipts, the Trustee's argument is totally undermined by the fact that in virtually every case that has addressed sixmonth claims, dating back to the mid-nineteenth century, there has been a secured creditor with a perfected lien against the debtor's operating revenue. At the hearing, the Trustee attempted to dismiss this fact by arguing that:

The reason that a lot of those old cases actually had secured claims in them was because there was a time ... where the presence of a security interest, indeed the presence of a first security interest in another party was a prerequisite to an award under the six-month rule.

Under one of the doctrines they used to justify the rule, in fact it was the requirement that the court find that the funds were diverted away from the six-month creditors to the payment of a senior lien, and therefore in the absence of a senior lien under that particular subset of the doctrine you had no six-month rule.

#### Case 13-10670 Doc 1913 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Main Document Page 19 of 21

So not uncommon of course that the cases would involve security interests in that context.

Hearing Tr. at page 21, line 21 – page 22, line 10.

The Trustee was, of course, referring to the line of cases that evolved from *Fosdick v*. *Schall*, 99 U.S. 235, 25 L. Ed. 339 (1879), which was based upon the principle of equitable restitution – that a mortgagee must restore to operating creditors revenues diverted to the mortgagee's advantage. *See Boston & Maine II*, 634 F. 2d at 1377. As the First Circuit held, however, in *Boston & Maine II*, a separate and independent basis for conferring priority under the six-month rule has evolved from the Supreme Court's decision in *Miltenberger v*. *Logansport* that does not require a showing that funds were diverted for the benefit of a secured creditor. In those cases, secured creditors held perfected security interests that were a matter of public record. *See e.g. Miltenberger v. Logansport*, 106 U.S. at 288; *Southern Railway Company v. Flournoy*, 301 F. 2d at 849; *In re Boston & Maine Corp.*, 46 B.R. at 935-36. Yet, the existence of those recorded security interests did not prevent the claims of creditors from being accorded status as six-month priority claims.

The fact that Wheeling held a security interest in MMA's accounts receivable and that security interest appeared on a Dun & Bradstreet report obtained by the MN/NB Railways is entirely irrelevant. The issue is whether the MN/NB Railways expected to be paid from current operating revenue received by the MMA. The evidence established that to be the case. No evidence was presented to suggest otherwise.

#### **CONCLUSION**

The Trustee's objections to the claims of the MN/NB Railways are without merit. Interline freight claims like those asserted by the MN/NB Railways are quintessential examples of the types of claims that qualify as "six-month" claims, and have been recognized as such by

19

the First Circuit. Moreover, the evidence clearly established that the services provided by the MN/NB Railways were necessary to MMA's operation of what the Trustee characterized in his Disclosure Statement as the "critical rail artery" between Montreal and Saint John, New Brunswick.

With respect to MN/NB Railways' claims for services provided in connection with nonoil shipments, the Irving Paper Companies provided MMA, through the swap arrangement, the cash (i.e. current operating revenue) with which MMA satisfied its obligations to the MN/NB Railways. In that way, the MN/NB Railways avoided taking on any credit risk with the MMA, and instead provided freight services under an arrangement that provided for payment from current operating revenue.

Separate and apart from the non-oil shipments, the evidence established that with respect to oil shipments, the MN/NB Railways provided freight services to the MMA pursuant to the agreement and understanding that payment would be made immediately following MMA's receipt of payment from the ISS. Irrespective of how one might characterize the swap arrangement, it is clear that the MN/NB Railways provided services to the MMA in connection with oil shipments with the expectation that payments would be made from "current receipts." The Trustee presented no evidence to suggest otherwise.

This is a unique case. As articulated by the First Circuit in *Boston & Maine II*, a creditor seeking priority status under the six-month rule, must present evidence to show that the services provided by the creditor were necessary to the operation of the debtor's business, and the services were provided with the expectation that payment would be made from current operating revenue, rather than in reliance on the debtor's general creditworthiness. The MN/NB Railways have made that showing in this case. The Trustee's Objection to the claims of the MN/NB

Railways should be overruled and an order should be entered finding that the claims asserted by the MN/NB Railways are to be treated as six-month claims entitled to priority under section 1171(b) of the Bankruptcy Code.

5	THE COURT: Good afternoon.
6	(A chorus of good afternoon)
7	THE COURT: We're here on the Montreal Maine &
8	Atlantic Railway Ltd. case, 13-10670, and we are on a
9	continued hearing of document 1826, trustee's objection to
10	proofs of claim of New Brunswick Southern Railway and Maine
11	Northern Railway. And I understand we have a stipulation
12	that gets rid of the duplicate claims.
13	But why don't I begin with appearances starting
14	with you, Mr. Keach.
15	MR. KEACH: Thank you, Your Honor. Robert Keach,
16	the Chapter 11 Trustee for Montreal Maine & Atlantic Railway

5	Thank you for the stipulations. So we can take

7	MR. KEACH: That is correct, Your Honor.
8	THE COURT: Okay. And then I saw the stipulations

16	MR. KEACH: Thank you, Your Honor.
17	I actually think we covered it, but both with

This is Judge 7 Peter Cary in the Montreal Maine & Atlantic Railway case. 8 Is there anybody on the telephone that would like to enter 9 their appearance in this afternoon's hearings? 10 COURTCALL: I'm sorry, Your Honor, no one is 11 scheduled to dial in for it. 12 THE COURT: Thank you. 13 MR. LEPENE: Thank you, Your Honor. 5 Again, Your Honor, for the record, Alan Lepene 6 with the law firm of Thompson Hine on behalf of the New 7 Brunswick Southern Railway Company and the Maine Northern 8 Railway Company. 9 And as Your Honor has noted in terms of the 10 stipulation that we have submitted, the purpose of this 11 hearing is to address whether the claims asserted by the 12 Irving Railroad -- and I'm going refer to both New Brunswick 13 Southern Railway Company and Maine Northern Railway Company 14 as the Irving railroad. 15 THE COURT: Okay. 16 MR. LEPENE: These are railroads that are 17 affiliated with J.D. Irving, Limited, and so that there is 18 no confusion with respect to other parties that have been 19 involved in the Chapter 11 proceeding of the Montreal Maine 20 & Atlantic Railway, these are companies that are not related 21 to Irving Oil. 22 The -- as I indicated, the issue here is whether 23 the claims that we have asserted qualify as six-month claims entitled to priority under Section 1171(b) of the Bankruptcy 24 25 Code.

1	The trustee filed his objection, we filed a
2	response. I did see today filed just about an hour and a
3	half or two hours ago a reply that the trustee has filed.
4	I've had a chance to look at that briefly, I haven't had an
5	opportunity to study that in any detail, but I think in
6	terms of the papers that have been filed and the arguments
7	that will be presented and the evidence that will be
8	presented we'll be able to flesh out this issue of
9	entitlement to status as six-month claims entitled to
10	priority under Section 1171(b) of the Bankruptcy Code.
11	If I might, Your Honor, I'd like to provide just a
12	brief opening statement and then call our first witness.
13	THE COURT: Sure.
14	MR. LEPENE: In terms of our position, Your Honor,
15	I think we know what the standard is in terms of whether
16	claims qualify as six-month claims entitled to priority
17	under Section 1171(b). The standard is laid out very
18	clearly in the First Circuit's opinion in the Boston and
19	Maine case. And the standard is quite clear. Was the claim
20	incurred within six months prior to the commencement of
21	reorganization? Were the services for which payment is
22	sought necessary to the ongoing operation of the railroad?
23	And were the services provided with the expectation that
24	they would be paid for out of current operating revenue of
25	the debtor railroad rather than in reliance on the general

2	THE COURT: Is that a subjective test at that
3	point? And if the Irving railroads get up and say, well
4	that's definitely what we believed, then it's game over and
5	the trustee
6	MR. LEPENE: Well we would certainly
7	THE COURT: automatically loses?
8	MR. LEPENE: We would certainly like to believe
9	that, Your Honor, but I think we're realistic enough to know
10	that there needs to be evidence in terms of the
11	understanding between the parties as to what the expectation
12	was.
13	So, I'm not going to stand up here and suggest to
14	you that we simply put on the testimony of the witnesses for
15	the Irving railroads and say, well this is what we expected
16	and therefore, as you say, game over. It's clearly not that
17	simple. But it is a function of what the evidence will
18	show, the agreements and understandings of the parties were
19	in connection with the provision of services to the
20	railroad. And that's what we're about, that's what we're
21	going to present evidence to address.
22	Going through the standards, and I think Your
23	Honor has actually focused on the issue that we're probably
24	going to pay the most attention to, but let me address the
25	other two very briefly.

2 MR. LEPENE: I don't believe there is any dispute 3 that the Irving railroad provided the services in question 4 within six months prior to the reorganization. And we'll 5 produce evidence, we have the invoices, the invoices 6 indicate the various dates that services were provided, so, 7 I don't think we're going to have to spend much time dealing 8 with that.

9 As to the issue of whether the services were
10 necessary to the ongoing operation of the Montreal Maine &
11 Atlantic Railway, I would note a copy of things.

12 In his objection the trustee argues that the First 13 Circuit has determined as a matter of law that interlying 14 claims of the type that are asserted by the Irving railroads 15 do not qualify as six-month claims. Now -- and he's I think 16 pretty much repeated that argument in the reply that he 17 filed this morning. And this argument is based on a 18 statement that is made in a First Circuit opinion in the 19 Boston and Maine case that addressed what are referred to as 20 per diem claims. 21 Those claims, Your Honor, are charges that are

21 assessed on a daily basis by one railroad to another
23 railroad for the use of its cars. And the trustee claims in
24 his objection that the claims for per diem charges are
25 really the same type of claim as the interlying claims

## Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 11 of 169

Page 11 1 asserted by the Irving railroads in this case. And, Your 2 Honor, that's one of the few points on which we can agree. 3 I think the interlying claims are essentially similar to the 4 per diem claim that is were asserted by the Irving -- excuse 5 me -- by the interlining railroads in the Boston and Maine 6 case.

7 The problem with the trustee's argument is that
8 he's misread the Boston and Maine decision in that regard.

9 In the case that he cites, and this was really the 10 first of two cases that the First Circuit addressed in terms 11 of the Boston and Maine reorganization. The first case 12 dealt with the issue of whether the per diem claims were 13 required to be paid immediately during the course of the 14 reorganization. And we've addressed this in our brief and I 15 know the Court has read our brief, so I'm not going belabor 16 the point, but that was the issue that was in front of the 17 court in that case. That case had nothing to do with the 18 question of whether the per diem claims would qualify as 19 six-month claims entitled to priority under Boston and 20 Maine's plan of reorganization. It simply was not an issue 21 that was addressed in that particular case.

The issue was addressed in the second Boston and Maine decision, and that of course is the decision that we all rely upon for guidance in terms of understanding what is required to qualify -- what is required for a claim to

Page 12

1 qualify as a six-month priority claim.

2 And ironically the very same per diem claims that were addressed by the First Circuit in the first Boston and 3 Maine decision were the claims that were addressed in the 4 5 second Boston and Maine decision. And the court held in 6 that case that those claims were the types of claims that 7 would qualify for priority if the other conditions were They had to be incurred within six months of the 8 satisfied. 9 commencement of reorganization and they had to be furnished 10 with the expectation that they would be paid out of current 11 operating revenue rather than a reliance on the general creditworthiness of the debtor. 12

13 What is most illuminating in the second opinion of 14 the First Circuit is that they talk about the disastrous 15 consequences. Those aren't my words, those are the First 16 Circuit's words. The disastrous consequences that would 17 flow from a failure to pay interlying claims. And what 18 would those consequences be? The potential for a stoppage 19 of traffic, which would have a devastating impact not only 20 on rail operations but on the public at large. 21 So again, the First Circuit addressed the per diem 22 claims, recognized that they were interlying claims, if you will, claims for services provided by one railroad to 23 24 another railroad, and the First Circuit recognized that 25 claims of that type -- these are the same claims that are

being asserted by the Irving railroads -- do in fact represent claims for services that aren't necessary to the ongoing operation of a railroad.

Now the trustee argues in his reply that the
services really weren't necessary, because if the Irving
railroads refused to accept traffic -- an interchange of
traffic from the MMA that there were alternate routes that
could have been pursued.

9 The evidence will show that without being able to 10 interchange traffic with the Irving railroads the MMA would 11 have lost essentially the entire Saint John market, which is 12 where the oil that was being produced in North Dakota was 13 being transported to over several years, you know, prior to 14 the unfortunate accident that had occurred, and there was a 15 source of tremendous revenue for the MMA.

16 If they would have been forced to choose 17 alternative routes they would not have been competitive in 18 terms of being able to successfully obtain the business from 19 the shippers in North Dakota, and they would have lost that 20 particular business. There simply was no practical, easable 21 (sic) way for them to be to deliver product, deliver the oil 22 to Saint John without interchanging with the Irving 23 railroads.

And so the fact of the matter is that this would have had a devastating impact on MMA's operations. And I

Page 13

## Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 14 of 169

don't think that the standard is necessarily to show that they would have been put out of business. Would it have had a substantial negative impact on their operations? I think the evidence will show that that absolutely would have been the case. And the second element I think is clearly satisfied.

7 So, Your Honor, that leaves us with the question of whether the Irving railroads delivered the services to 8 9 the debtor with the expectation that they would be paid for 10 out of current operating revenue of the MMA or whether they 11 were relying upon the MMA's general creditworthiness. And 12 as I think -- and as I mentioned before, I think Your Honor 13 has focused on that, I think that's primarily what we're all 14 about here in terms of the issues that we need to address.

Now, Your Honor, what the evidence will show is that the Irving railroads were determined to avoid credit risk with this particular debtor in the MMA with the successor to the Bangor & Aroostook railroad. The operations -- the real assets of the MMA were acquired out of bankruptcy. Obviously a troubled history with respect to that railroad.

From the inception of the relationship between the Irving railroads and the MMA, which began in 2003, so some ten years before the unfortunate accident in 2013, from the inception of that relationship, Your Honor, the Irving

1 railroads were unwilling to rely on the general creditworthiness of the MMA. The evidence will show that 2 3 because they were unwilling to rely on the creditworthiness 4 of the MMA they entered into an arrangement with the MMA 5 that involved the Irving paper companies, which are 6 companies that are affiliated with the Irving railroads, and 7 that which happened to be among the largest customers of the 8 MMA.

9 Now what they did in terms of entering into this 10 arrangement was to set up a process under which the parties 11 would exchange cash payments on a weekly basic. Again, this 12 is driven by the fact that from the beginning Irving 13 railroads were not satisfied, were not willing to rely on 14 the creditworthiness of the MMA in terms of doing business 15 with them.

So what happened here, and this is what the evidence will show, is that the parties would determine on a weekly basis how much the Irving paper companies -- again, these are affiliates of the railroads --

20 THE COURT: Right.

21 MR. LEPENE: -- how much the Irving paper 22 companies owe the MMA for freight charges that had been 23 incurred by the MMA in carrying freight for the Irving paper 24 companies, and the parties would determine how much the MMA 25 owed the Irving railroad for freight services. And much of

the freight services that were owed by the MMA to the Irving railroads actually involved freight from the Irving paper companies that was being shipped from their mills in Canada to other destinations. And so you have this relationship where on a weekly basis the parties would exchange payments among each other.

7 Now the arrangement was what it was. The label 8 that you put on that arrangement -- and I note it in the 9 reply that was filed this morning in terms of how the 10 trustee wants to characterize the arrangement -- I think 11 labels are really irrelevant. The issue is what actually 12 transpired with respect to this arrangement? And what 13 transpired was that the Irving paper companies on a weekly 14 basis would pay in cash, it'd be done by wire transfers, 15 what they owed to the MMA and the MMA would pay in cash 16 through a wire transfer what it owed to the Irving railroads 17 in terms of fright services.

18 The expectation of the parties was that the Irving 19 railroads would be paid out of the cash that was collected 20 by the MMA from the Irving paper companies, and in most of 21 the weeks that this was done, the fact is the Irving paper 22 companies were paying more to the MMA than the MMA was turning around and paying concurrently to the Irving 23 24 railroads. 25 So was this an arrangement under which the Irving

Page 16

railroads were relying on the general creditworthiness of
the MMA? Absolutely not. What they were relying on, the
source of their payment, the source of the payment for the
Irving railroads in terms of who was owed by the MMA was
essentially the cash that was being paid to the MMA by the
Irving paper companies.

7 Now this arrangement worked very well for a number 8 of years until we had this development, all attributable to 9 the (indiscernible) that was going on in North Dakota and 10 the oil that was -- crude oil that was being generated, and 11 then it started to get shipped to the refineries in Saint 12 John, New Brunswick, and as a result of this massive 13 increase in terms of the oil shipments and therefore the 14 freight revenue that was generated as a result of these 15 shipments, the fright charges that were owed by the MMA to 16 the Irving railroads -- because again, this traffic was 17 interchanged, it would come from North Dakota essentially on 18 Canadian Pacific, would get interchanged with the MMA, and 19 then they would carry it, would interchange with the Irving 20 railroads and then onto the refineries in Saint John. 21 THE COURT: Just going to ask a quick question, I 22 don't mean --23 MR. LEPENE: Yes. 24 THE COURT: -- to be rude or cut off --25 MR. LEPENE: Yes.

1	THE COURT: where we're going with this.
2	This is wonderfully illuminating for me and
3	helpful. What I'm wondering is whether or not this is more
4	like summing up closing argument and putting everything
5	together at the end after the evidence is produced. So, I
6	just throw that out.
7	MR. LEPENE: Okay.
8	THE COURT: I'm okay with a quick sort of glimpse
9	of where we're going to go, but I'm wondering as to whether
10	it'd be better off towards the conclusion of testimony.
11	MR. LEPENE: Okay, Your Honor. I will be brief in
12	getting through this.
13	One of the reasons again, Your Honor, I only
14	received the reply from Mr. Keach at about 11 o'clock this
15	morning and don't know whether the Court had an opportunity
16	to read it, but the concern that I had frankly was a lot of
17	this this is laid out in terms of Mr. Keach's arguments,
18	I wanted to be able to respond to this and put everything in
19	contents.
20	THE COURT: That's fair enough. To answer your
21	question I was on the bench in another contested 11
22	Chapter 11 until I don't know what time, but after 10:59 I
23	think I was on the bench probably 'til closer to a little
24	afternoon, I did see this at 1:15 and I read it as closely
25	as I could from 1:15 on, and I was going to give you an

#### Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 19 of 169 Page 19 1 opportunity, to the extent needed, to respond. But --2 because I don't want to cut off your rights -- but I'm in a 3 similar boat. 4 MR. LEPENE: Okay. I'm pleased to hear that 5 actually, Your Honor. 6 I'm going to then cut through this, and I would 7 agree, we can get to the evidence. 8 Just a few additional points that I'll make very 9 briefly, and I think you are, if you've looked at their 10 reply and you've read our papers, you know that that swap 11 arrangement then was modified. Actually it was a new 12 arrangement in addition to the swap arrangement that just 13 dealt with the oil payments, and the evidence will show that 14 what the parties agreed to was that when the MMA received 15 payment through what is referred to as the interlying 16 settlement system, as soon as they got that payment they 17 would turn around and pay the Irving railroads their share. 18 So again, we think the evidence shows that's --19 that we were providing services with the expectation that we 20 would paid out of current operating revenue, not relying on 21 the general creditworthiness of the MMA. 22 Now let me just skip to the last point and then we'll give Mr. Keach an opportunity and we can -- if he 23 24 cares to make an opening statement and we can then move to 25 the evidence.

1	They raise the issue Mr. Keach raises the
2	issue, well you couldn't have been relying upon general
3	operating revenue because there was a security interest
4	involved held by Wheeling and Lake Erie Railroad and they
5	had a security interest in the accounts receivable to secure
6	a \$6 million line of credit.
7	THE COURT: But the existence of a security
8	interest doesn't necessarily conclude that, correct?
9	MR. LEPENE: Absolutely, and that's our position.
10	And the thing that I would point out, Your Honor,
11	which I think is most forceful, in every one of the cases
12	that go back over 150 years in which priority was
13	established for 6-month claims there were security interests
14	that were in place in favor of secured creditors that
15	secured the operating revenue of the railroad.
16	So if Mr. Keach I have the greatest respect for
17	Mr. Keach, he's good, but he's not that good. If he's
18	correct
19	MR. KEACH: Oh, yes, I am. We'll get to that.
20	THE COURT: I'm sorry, was that a proffer?
21	(Laughter)
22	THE COURT: No.
23	MR. LEPENE: Yeah, my proffer is he's not that
24	good.
25	MR. KEACH: Well, we'll see.

1	MR. LEPENE: If he's correct then 150 years of
2	case law was decided incorrectly.
3	Bottom line, the evidence is going to show that
4	the Irving railroads and the claims of the Irving railroads
5	satisfy all of the requirements for priority that have been
6	established by the First Circuit and that we are entitled to
7	priority status under Section 1171(b) of the Bankruptcy
8	Code.
9	Thank you very much. Thank you for your
10	indulgence, Your Honor.
11	THE COURT: Sure. Thank you.
12	Mr. Keach?
13	MR. KEACH: Thank you, Your Honor. And I will
14	actually try to make this opening brief, since we're well
15	into the afternoon and I know our time is somewhat short.
16	Let me respond to that last point first, not the
17	point about my ability or lack thereof, but the point about
18	the secured claims.
19	Unfortunately I think Mr. Lepene, who's otherwise
20	very capable, is also misreading 150 years worth of railroad
21	case law and the six-month rule. The reason that a lot of
22	those old cases actually had secured claims in them was
23	because there was a time, and this is actually still true in
24	some circuits, where the presence of a security interest,
25	indeed the presence of a first security interest in another

1	party was a prerequisite to an award under the six-month
2	rule.
3	Under one of the doctrines they used to justify
4	the rule, in fact it was a requirement that the court find
5	that the funds were diverted away from the six-month
6	creditors to the payment of a senior lien, and therefore in
7	the absence of a senior lien under that particular subset of
8	the doctrine you had no six-month rule.
9	So not uncommon of course that the cases would
10	involve security interests in that context.
11	The Boston and Maine decision that we all adore
12	and argue from, largely because it probably raises as many
13	questions as it provides answers, solved at least in the
14	First Circuit that issue. It essentially said, no, the so-
15	called diversion or mortgage v. diversion rule isn't a basis
16	for the rule in the First Circuit, nor is the doctrine of
17	necessity, which exists for other reasons. The standard is
18	the standard that Mr. Lepene has articulated and I think
19	which we agree on. And for that reason the sort of presence
20	or absence of secured claims in those cases going back over
21	150 years is while interesting largely irrelevant to our
22	inquiry today, and we'll get to what we think the
23	significance is of the Wheeling security interest in this
24	case.
25	We're not arguing that the mere presence of a

	Page 23
1	security interest is per se a problem, we're arguing that
2	the existence of the known security interest and the nature
3	of the known security interest in this case prevents the
4	reliance upon which they premise their case.
5	THE COURT: Right. Because in this case there's
6	nothing easy for the Court. This is got to be a fact
7	driven, testimony evidence driven matter.
8	MR. KEACH: I think so with the exception of the
9	issue on the interlying payments, which I'll get to. And
10	also now let me revert back to the order in which Mr. Lepene
11	presented his case.
12	We do believe that with respect to interlying
13	payments, which form the bulk of their claims, that they
14	lose as a matter of law.
15	The second opinion that Brother Lepene referred to
16	simply doesn't support his proposition at all. But more
17	importantly that decision was under the preexisting
18	bankruptcy act provision. 1171(b) comes along and
19	incorporates much of the precode case law, but not all of
20	it. And most importantly in a Bankruptcy Code case, which
21	we've cited in the clean industries, looks back at both the
22	Boston and Maine opinions, and addressing specifically not
23	the issue of per diem car payments, but specifically the
24	issue of interlying balances, and what we have in this case
25	are unquestionably interlying balances.

1	What the Southern Bankruptcy Court for the
2	Southern District of New York said and looking at both the
3	Boston and Maine decisions and looking at Congress's intent
4	under 1171(b) said, quote:
5	"Congress in enacting the bankruptcy Code
6	expressly rejected a proposal that debtor railroads be
7	required to pay interlying balances, stating that to do
8	so would distort the central bankruptcy principal of a
9	quality of treatment of unsecured creditors."
10	And that's really what's at issue here, right?
11	The issue is whether or not the Irving railroads have a
12	priority over all of the other unsecured creditors who also
13	supplied goods and services and they're not paid for them,
14	many of whom supplied them frankly throughout a longer
15	period of time.
16	So the fact of the matter is that interlying
17	balances aren't 1171(b) payments, precisely for the reason
18	that under modern railroad law, number one, they couldn't
19	have refused us if they had wanted to in going over their
20	tracks, and secondly, because of the interlying payment
21	system had they been members of the interlying system there
22	would have been no risk to them in our doing so.
23	Irving railroads find themselves in the position
24	they're in because they, for clearly self-interested
25	reasons, opted out of the interlying payment system and

#### Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 25 of 169

instead decided to create a situation where first and
 foremost they put themselves in a position of a secured
 creditor, and secondly, then put themselves in a position
 where MMA collected interlying payments from the system for
 their benefit, and they then were relying on the interlying
 payment system in terms of credit extension.

7 The fact of the matter is that -- and we'll get to 8 the specifics, because neither Mr. Lepene's argument nor 9 mine are testimony, and the testimony is way more important 10 on this -- but what -- the chronology is something that 11 Mr. Lepene and I don't disagree on.

12 But what happen to begin with largely because --13 and you'll here from Mr. Hansen momentarily -- largely 14 because of the history of Bangor & Aroostook, Mr. Hansen was 15 leery about continuing to do business with the successor, 16 and as a consequence and because Mr. Hansen is an employee 17 of J.D. Irving, which is the parent that controls --18 commonly controls all of these entities, including Irving 19 Paper, and since Irving Paper was a major customer of the 20 railroad, of MMA, what he decided to put in place, 21 notwithstanding an agreement incidentally -- the original 22 agreement between MMA and the Irving railroads had standard 23 credit terms, net 21-day terms -- notwithstanding the 24 agreement to have everything done on net 21-day terms, we decided to set up a secured credit relationship. 25

Page 26

1	And Mr. Lepene just told you it's not the labels
2	that matter, it's how they handled things. Well the reason
3	he doesn't want the labels is because the label that his own
4	client put on this relationship was that it was a secured
5	creditor/debtor relationship.
6	THE COURT: It sounds like somebody worried about
7	a general creditworthiness.
8	MR. KEACH: Well, I think it sounds like somebody
9	who's taking collateral, which they did. And like most
10	people who take collateral, they're not relying on our
11	creditworthiness, they were actually relying on their
12	collateral.
13	Importantly what Mr. Hansen testified to and
14	one of the reasons you got our reply this morning was being
15	we're both doing depositions until last night but one of
16	the things he said in his deposition was that while he
17	pulled the Dunn & Bradstreet report on MMA, he didn't really
18	take into account anything that was in it. He could have
19	cared less frankly about the general creditworthiness or
20	cash flow of any other financial characteristic of MMA
21	because he was relying on the collateral arrangement that he
22	had structured. And what you'll hear about is essentially
23	what he created, which is documented in some emails, was a
24	triangular setoff arrangement by agreement. And I'm not
25	making this up, these are his exact words, so you know as

Page 27 1 far as I'm concerned if we were going to do business it was 2 going to be done on a secured basis. 3 THE COURT: This is yesterday's deposition? Yesterday's deposition. MR. KEACH: And what 4 5 happened, Your Honor, was that Irving Paper, under the 6 common control of J.D. Irving, generally owed to MMA more 7 money than MMA owed to the Irving railroads, right, this was 8 the triangular setoff. And so what Mr. Hansen testified to, 9 and I presume he will be consistent in his testimony today, 10 is that he, through the parent common control of the 11 entities, held onto the payment otherwise due from Irving 12 Paper to MMA until such time as MMA made the payments due to 13 the Irving railroads at which point he would release the 14 wire from Irving Paper to MMA. When I asked, what would you 15 have done if MMA had not paid? He said, I simply would have 16 kept the money that was from Irving Paper. 17 Given the fact that he has admitted he wasn't

18 relying on anything in the Dunn & Bradstreet report, that 19 they didn't otherwise get any financial statements from us, 20 they have no financial reporting, through this entire 21 initial period it's clear they weren't relying on our 22 creditworthiness or our cash flow or anything else. What 23 they were relying on was their ability to control the 24 payments from one of our largest customers because they were 25 under common control. That's what they were relying on.

Exhibit A - Hearing Transcript Page 28 of 169 Page 28 Why did this go wrong? Well the reason it went wrong for them and the reason they're the only railroad here by the way that has an unsecured claim, is that the -- they were not members of the ISS. And what happened was as the oil shipments became the dominant component of MMA's business, what that meant was that under the collateralization arrangement that they had created was that they became progressively undersecured, something they hadn't anticipated. And the reason for that, Your Honor, was that the amounts due to MMA and incidentally due to the Irving railroads under the ISS system for the oil shipments, became a much larger component of the business. THE COURT: And as you look at the exhibits to the proof of claim you see the growing --

16 THE COURT: -- of the amount of (indiscernible) or 17 whatever you would like to call it.

18 MR. KEACH: Right. Exactly, Your Honor.

19 And so what happened was it was no longer true 20 that the Irving paper entities owed, you know, in other words --21 22 THE COURT: Right. 23 MR. KEACH: -- were -- had more to pay us than was 24 owed by us to them. In other words there was an imbalance 25 that was ultimately under collateralized.

#### Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 29 of 169

Well what did they do about that? What happened at the time, and it's fair to say that this original situation was set up because Irving -- the Irving railroads not being members of ISS, I think Mr. Hansen would agree, that he had very little mileage about the way ISS worked and as a consequence didn't want to rely on it.

7 Through conversations with Mr. Simpson in light of 8 this growing imbalance he learned more about ISS, and 9 essentially what was created and continued was that MMA 10 would collect from the ISS as a participating member of ISS 11 not only the amounts that were due to it for traffic over 12 its track or its interchange activity, but also the amounts 13 that would otherwise have been due to the Irving railroad.

14 Now the way the ISS works, and this is all in 15 Judge Haynes' excellent opinion in Bangor & Arrostook at 320 16 B.R. 226, sadly I think neither of us cited it and we 17 probably should have because it contains the best 18 explanation I know of of the ISS system and particularly the 19 way it operates, and we'll get to the significance of that 20 case in a second, but what happened under these 21 circumstances was that by essentially saying that they would 22 agree as to this spread, the amount not covered by the Irving Paper payments, that they would wait until MMA 23 24 collected money from the ISS and then within five days after 25 MMA collected money from the ISS they would remit that money

Page 30 1 to the Irving railroads. Essentially that was an agreement 2 to credit terms that could be as long as 70 or more days. 3 Because the way the -- remember as to the oil shipments I 4 guess as we all know from other activity in this case 5 Canadian Pacific was the originating carrier of the oil 6 shipments.

7 The way the ISS works is that the originating 8 carrier is then responsible for paying all of the receiving 9 railroads along the line. The originating carrier is 10 responsible to pay those railroads whether or not the 11 originating carrier collects from the customer ultimately, 12 whether that customer is the shipper or the ultimate 13 destination. But that responsibility for CP to pay doesn't 14 exist until the weigh bills clear the system, and that can 15 be from the time that the trains run over people's tracks to 16 the time that that happens, it can be a period as long as 70 17 or more days.

18And so essentially we now had a two-part19arrangement. Reliance on the collateral, and you know, once20you've collected from the ISS system, the money that would21otherwise be payable to us, turn it over to us. And again,22by definition a net 60, 70, 75-day period of time.23More importantly, Your Honor, and as this will24come out in testimony and then I'll wrap up, by not being a

#### 25 member of ISS and by creating this system, but certainly

Page 31 1 being knowledgeable about ISS, I'm sure Mr. Simpson will be 2 able to tell us that he has lots of knowledge about the way ISS works, by not being a member and by setting up this 3 arrangement the Irving railroads agreed and virtually 4 5 insured that they would be last in line at all times with 6 respect to ISS. Because the way the ISS works is all of the 7 other participants have to get paid first. So everybody 8 else who was a member got paid out of the system ahead of 9 this final drop of money to us, and that's the decision they 10 made. That's the decision they made when they didn't want 11 to be a member of the ISS, because they didn't want to take 12 on the credit risk of being an originating railroad, and 13 that's the risk they took on when they decided to create 14 this system. But it is by any definition an extension of 15 credit, and it is by any definition a fairly massive 16 extension of credit.

I would submit to you though that they're not relying -- because again they never cared about our financials -- they're not relying necessarily on our cash flow or anything else, they're relying on the collateral (indiscernible) fidelity essentially as a collection agent under the ISS system.
THE COURT: And by not being -- not participating

in the ISS system MMA would assert they essentially
 developed an unsecured creditor relationship with MMA where

1	MMA could take care of its other obligations of the ISS
2	ahead of taking care of the Irving railroads.
3	MR. KEACH: Not only whether we could but by
4	necessity it was going to occur.
5	THE COURT: By financial necessity.
6	MR. KEACH: And by the manner in which the ISS
7	system worked, right? So in other words
8	MR. KEACH: Requiring you to take to
9	MR. KEACH: in other words if we owed money to
10	other railroads as a consequence of that, you know,
11	transcontinental shipment they were going to get paid first.
12	And more importantly and again, this is in the
13	Bangor & Aroostook opinion, which I think is definitely
14	worth a read, one of the things that the primary holding
15	in that case by the way, the important holding in that case
16	is that the ISS system does not create sort of mutual trust
17	relationships.
18	THE COURT: Right.
19	MR. KEACH: In other words, when the money was
20	paid to us it was our money, we had complete dominion over
21	the money, we didn't hold the money in trust for anybody.
22	THE COURT: No fiduciary obligations that arise
23	MR. KEACH: No fiduciary obligation, the money
24	belongs to the estate, and you have a bankruptcy that
25	intervenes.

1	But and importantly I think one of the
2	motivators behind Judge Haynes' decision in that respect was
3	that there was nothing about that system that should give
4	those claimants priority other unsecured creditors. He
5	looked at the policy implications of treating it as a trust
6	system and decided it would be unfair among the trust you
7	know, in and among the trust analysis, which was primary for
8	unsecured creditors to be subordinated to those claims and
9	trusts.
10	I would submit to you, Your Honor, that if it were
11	so obvious that interlying payments were 1171(b) claims
12	there would have been no reason for the Bangor & Aroostook
13	decision because they weren't even arguing the trust. If
14	they were going to be paid on top of everybody else any way
15	what would have been the point? The fact is as a matter of
16	law they're not. And so I end where I began. So let me
17	stop there.
18	I'll in summary, you know, we have basically three
19	arguments and they're summarized in our brief and I won't
20	belabor them. One, we don't think these payments qualify as
21	a matter of law or fact as 1171(b) payments.
22	We think it is abundantly clear that at no time
23	were the Irving railroads relying on MMA's cash flow or its
24	credit other than the fact that they were extending us
25	credit through the system. They relied by their own choice

1	on their collateral arrangement, and then when that
2	collateral arrangement did not suffice they relied on our
3	fidelity and collecting for them from the ISS system. None
4	of those things make them fit will be 1171(b) realm.
5	And for that reason awarding them a priority would
6	be, we think, grossly unfair to the other unpaid unsecured
7	credits in the case.
8	THE COURT: Thank you very much, Mr. Keach.
9	MR. KEACH: Thank you.

10	DIRECT EXAMINATION
11	BY MR. LEPENE:
12	Q Good afternoon, Mr. Hansen. Mr. Hansen, where do you
13	reside?
14	A I reside in Saint John, New Brunswick, Canada.
15	Q And by whom are you employed?
16	A J.D. Irving, Limited.
17	Q And what is the business that J.D. Irving, Limited is
18	engaged in?
19	A J.B. Irving, Limited is engaged in operating of several
20	companies. We're into lumber, we're into paper, we're into
21	shipping boats, we're into railways, farming. Numerous
22	operations.
23	Q Is J.D. Irving, through its affiliates, engaged in the
24	paper business?
25	A Yes, we are.

1	Q Can you identify the companies affiliated with J.D.
2	Irving that are engaged in the paper business?
3	A There's Irving Paper Ltd., there's Irving Pulp and
4	Paper, there's Lake Utopia Pulp and Paper, and there's
5	Irving Tissue.
6	Q Okay. And from time to time during the course of this
7	examination I may be referring to the Irving paper
8	companies, and in particular Irving Paper and Irving Pulp
9	and Paper.
10	A Correct.
11	Q Okay. Is J.D. Irving, Limited also engaged in the
12	railroad business?
13	A Yes, J.D yes, we are.
14	Q And what affiliates of J.D. Irving, Limited are engaged
15	in the railroad business?
16	A NB Southern Railway, Maine Northern Railway, Eastern
17	Maine Railway.
18	Q All right. And is J.D. Irving, Limited related in any
19	way to the Irving Oil Company?
20	A We are not.
21	Q Now what is your position, Mr. Hansen, at J.D. Irving,
22	Limited?
23	A I am a general manager corporate credit and financial
24	for all the Irving companies.
25	Q How long have you held that position?

1	A	Thirty-two years.
2	Q	And have you held that position from the time that you
3	join	ed the J.D. Irving, Limited company?
4	A	Yes, I have.
5	Q	Okay. Do you have a college degree?
6	A	Yes, I do.
7	Q	From what institution?
8	A	University of New Brunswick.
9	Q	Okay. And what was your the nature of your degree?
10	A	Business administration from the University of New
11	Brun	swick and a credit and financial analysis from the
12	Inst	itute of Canadian Bankers.
13	Q	Okay. Now you indicated that you have a role as
14	gene	ral manager corporate credit and finance for all of the
15	J.D.	Irving companies?
16	A	Yes.
17	Q	Okay. And what are your duties and responsibilities in
18	that	capacity?
19	A	In that capacity I set all the credit procedures,
20	cred	it policy, all the people that do the granting of credit
21	and	the collection of accounts receivable all report to

2	A That is correct.
3	Q And again, I'm going to from time to time refer to
4	those as the Irving railroads, is that all right?
5	A Yes.
6	Q Okay. Now do you have a role with the Irving
7	railroads?
8	A The role I have with the Irving railroads is I would in
9	conjunction with their general manager set the credit
10	policy, set the manner in which we're going to be extending
11	or not extending credit. We would I also employ the
12	people that do the actual collection of the accounts and
13	administrating of all their accounts receivable.
14	Q Mr. Hansen, are you familiar with the debtor in this
15	case, the Montreal Maine & Atlantic Railway Ltd.?
16	A Yes, I am.
17	Q When did you first become acquainted with I'll refer
18	to the debtor as MMA if that's all right when did you
19	first become acquainted with the MMA?
20	A January 2003.
21	Q And what were the circumstances under which you first
22	became aware of the MMA?
23	A The Irving railway companies were planning on doing
24	business with MMA by virtue of hauling freight.

2	A Well the they were the Irving railways were going
3	to do business with MMA in changing interchanging
4	projects that are coming into New Brunswick from their rail
5	lines.
6	Q So would that involve the interchange of traffic
7	between the two railroads?
8	A Yes, it would.
9	Q Did the Irving paper companies also have a relationship
10	with the MMA?
11	A Yes, they did.
12	Q And do you know when that relationship began?
13	A That would have began when MMA, I believe it was 2003
14	as well, when they became into existence.
15	Q Okay. And MMA came into existence, do you know the
16	circumstances under which they came into existence?
17	A Yes, they bought the assets of a bankrupt company.
18	Q And what was that company?
19	A Bangor & Aroostook.
20	Q Okay. Now you say that the Irving paper companies have
21	a business relationship with the MMA?
22	A That's correct.
23	Q And starting in 2003?
24	A That is correct.
25	Q And what was the nature of that relationship?

1	A Irving Paper would hire MMA to freight their product to

3	Q Okay. Now are you generally familiar with something
4	that is known as the interlying settlement system or ISS?
5	A I'm aware of it and have brief or limited knowledge of
6	it.
7	Q Okay. In terms of your knowledge of it what is it?
8	A It is a clearinghouse and a mechanism in which
9	intertraffic or interrail companies would get paid.
10	Q Okay. Does that mechanism or system involve the
11	settlement of accounts receivable and accounts payable among
12	participants in the ISS?
13	A Yes, it does.
14	Q And are you aware of how often settlements of those
15	accounts receivable and accounts payable are made?
16	A Monthly.
17	Q And are you aware of when payments are made from the

8	Q Are you aware generally of the mechanism for
9	settlements within that are made among participating
10	railroads within the ISS?
11	A Yes, I am.
12	Q Okay. And what's your understanding of that?
13	A That the ISS would have been paid money by the lead
14	rail company, the one that was invoicing the customer, they
15	would keep their share, send the difference into ISS who
16	would in turn on the second of every month disburse the
17	money to participating railways.
18	Q All right. So the payments to disbursing to the
19	participating railroads are made when?
20	A The second day of each month.
21	Q Second business day of each month?
22	A Yes.
23	Q Okay. Now did the MMA to your knowledge participate in
24	the ISS?
25	A Yes.

1	Q Did the Irving railroads participate in the ISS?
2	A No.
3	Q And why did the Irving railroads not participate in the
4	ISS?
5	A The Irving railways didn't participate because we
6	didn't really have the knowledge or the capacity financial
7	wise and otherwise the people to do it.
8	Q Was the decision not to participate in the ISS
9	influenced in any way by an evaluation of the
10	creditworthiness of the MMA?
11	A Absolutely not.
12	Q Now, Mr. Hansen, you testified earlier that the Irving
13	railroads interchange traffic with the MMA; is that correct?
14	A That's correct.
15	Q What would have been the impact on MMA's operations if
16	it was unable to interchange traffic with the Irving
17	railroads?
18	A It would have been devastating. Their operations just
19	would be a nightmare.
20	Q And why is that?
21	A Well they virtually wouldn't have an alternative. My
22	view would be they would be landlocked, there would be no
23	way to get the product to the final destination.
24	Q Did the Irving railroads have agreements and

4	A	Commercial agreement dated January the 9th, 2003.
5	Q	And are you familiar with that agreement?
6	A	Yes, I am.
7	Q	Who are the parties to that agreement?
8	A	Montreal Maine & Atlantic Railway Ltd., Eastern Maine
9	Rail	way Company, and New Brunswick Southern Railway Company
10	Ltd.	
11	Q	And who or what is Eastern Maine Railway?
12	A	It's a sister company of the NB Southern Railway.
13	Q	All right. So again affiliated with J.D. Irving,
14	Limi	ted?
15	A	That is correct.
16	Q	Okay. What was the purpose of this particular
17	agre	ement?
18	A	It was to establish the hauling of freight for MMA.
19	Q	Did it address payment terms or freight traffic
20	inte	rchange with the MMA?
21	A	Yes, it did.
22	Q	And what does it provide with respect to payment terms?
23	A	It provides 21 days from invoice.

13	A Yes, I did.
14	Q And what were the concerns?
15	A Concerns as my job payment. I had major concern that
16	the company would have a hard time to pay me.
17	Q And did you do something or take certain action to seek
18	to address those concerns?
19	A Yes, I authorized and entered into an agreement with
20	MMA whereby, my terminology, we would do swaps on a weekly
21	basis.
22	So basically Irving Paper and Irving Pulp and Paper's
23	funds would flow into my department, and once a week we'd

5	Q Okay. Generally in terms of the amount of cash that
6	was being sent from or on behalf of the paper companies to
7	the MMA and the amount of cash that was being sent from MMA
8	to the railroads, which was the larger amount of cash to be

12	Q Greater than the money that was coming back to the

14	A Correct.
15	Q Okay. And this was being done virtually
16	simultaneously?
17	A Yes.
18	Q Okay. And again, what was the reason for entering into
19	this particular agreement with the MMA?

2	MR. KEACH: Your Honor, it'd be actually good if
3	you would let him describe how it worked as opposed to
4	telling him how it works and asking him to acknowledge it.
5	THE COURT: Fair enough question.
6	MR. KEACH: Thank you.
7	THE WITNESS: How it worked is we would agree on a
8	certain day that the Irvings would send X number of dollars
9	by way of wire transfer, at the same time MMA would agree to
10	wire transfer back the amount we were looking for at the
11	same day same time.
12	BY MR. LEPENE:
13	Q Okay. Then if you would take a look at Irving
14	Exhibit 3. Can you identify that?
15	A Yeah. This Exhibit 3 is a response from Brenda Tarr
16	dated October 27, 2011 to Joanne Kelter in regards to the
17	swap.
18	Q Okay. And again, this is another email that is
19	illustrative of the way this arrangement was memorialized?
20	A That is correct.
21	Q And then if you would look at Irving Exhibit 4. Can
22	you identify that?
23	A This is an email from Brenda Tarr dated February the
24	16th, 2012 to Joanne Kelter responding to Joanne from an
25	email that she had sent to Brenda Tarr.

1	Q	And with respect to the message from Brenda Tarr to	
2	Joanr	ne Kelter that is dated February 16th, 2012, do you see	
3	that?		
4	A	Yes.	
5	Q	And this indicates there was an issue with respect to a	
6	holiday in the United States, President's Day. Do you see		
7	that?		
8	A	That is correct, yes.	
9	Q	And so the request was made to delay the swap for one	
10	day s	so that the Banks would be open on both sides of the	
11	border?		
12	A	Correct.	
13	Q	Are these emails representative of the emails that	
14	would have been exchanged between the parties that would		
15	have	memorialized the arrangement?	
16	A	That is correct.	
17	Q	Okay. Now did there come a time when problems arose	
18	with	this swap payment process?	
19	A	Yes, there was.	
20	Q	And when was that?	
21	A	If memory serves me I think it was June or July of	
22	2012.		
23	Q	And what caused the problem?	
24	A	The problem was one of the transportation of oil. The	
25	amour	nt became quite excessive, monies owed to NB Southern

2	have the capacity to pay when they were supposed to be paid.		
3	Q Now the can you describe when you say the shipment		
4	of oil, how did that operate?		
5	A Well the shipment of oil would have been coming out of		
6	the Dakotas by CT, they would hit MMA's line, they would		
7	interchange with MMA, then the oil would come the train		
8	would come down through until it hit NB Southern's line, NB		
9	Southern would transport it from then into Saint John, New		
10	Brunswick. And the cost, our share, Irving's share, it		
11	would bring it from where we interfaced into Saint John		
12	became quite excessive, quite high.		
13	Q Okay. Now let me direct your attention to Irving		
14	Exhibit 5. Do you have that?		
15	A Yes, I do.		
16	Q And at the top of that it's an email from Ian Simpson		
17	to Ellis Ryan dated October 22, 2015, that's just a month		
18	ago. Do you see that?		
19	A Yeah.		
20	Q All right. So is that just conveying the underlying		
21	email within the Irving organization?		
22	A That is correct.		
23	Q Okay. So I want to direct your attention to the		
24	underlying email which is from Robert Grindrod (ph) to Ian

1	A	I do.
2	Q	And the date of that email is?
3	A	June 4th, 2012.
4	Q	And the subject of the email is?
5	A	Revision of the settlement terms between NBSR and MMA.
6	Q	Okay. And is it your understanding that this
7	repr	esented a proposal from the MMA regarding a revision to
8	sett	lement terms as between NBSR, the New Brunswick Southern
9	Rail	way, and MMA?
10	A	Yes, it is.
11	Q	And looking at the email does Mr. Grindrod give a
12	reas	on for why a revision to the settlement terms is
13	nece	ssary?
14	A	Well the volume was getting excessive, quite high, and
15	they	just couldn't afford to have the cash to pay it.
16	Q	All right. Now turning to the attachment, and that's
17	titl	ed what?
18	A	Revision of payment terms of NBSR needed.
19	Q	Okay. And if you take a look at the first paragraph is
20	that	a correct statement that the existing terms were

16	A Yes.	
17	Q Okay. So the do you see the first bullet point

19	A Yes.	
20	Q "For all fright handled by NBSR up to the second

8	Q	The first bullet point.
9	A	Could be, I have I don't know.

14	Q	Okay. And is that consistent with the second bullet
15	poin	t in Mr. Grinrod's proposal?
16	A	Correct.

21	A	Yes.

10	A	From the Irving Paper Company.
11	Q	Okay. Then the next bullet point on received traffic,
12	"The	e freight charges must be apportioned through the

14	is t	hat consistent with your understanding?
15	A	That is correct.
16	Q	Okay. "MMA typically does not receive payment through
17	the	ISS for 45 to 60 days after handling the car on
18	aver	age." Is that
19	Α	That is correct.
20	Q	consistent with what you understood?
21	Α	Yes.
22	Q	Okay. "As a consequence MMA is expected to make

And that would of 6 course go back to 2003. Is that consistent with your 7 understanding? 8 That is correct. 12	MR. KEACH: Your Honor, objection. Calls for a
13	legal conclusion. He's already testified on a number of
14	circumstances about what they were relying on in particular
15	factual circumstances, what Mr. Lepene is now asking
16	(indiscernible) to conclude from that based on the legal
17	assumption.
18	MR. LEPENE: Your Honor, if I might respond to
19	that?
20	THE COURT: Yes.
21	MR. LEPENE: That's not a legal conclusion at all,
22	that's an issue of fact as to whether they relied on the
23	general creditworthiness of the MMA or whether the
24	expectation was that they would be paid from current
25	operating revenue of the railroad. I don't understand how

2	MR. KEACH: Yet, Your Honor I mean more
3	importantly it's also a completely devoid of foundation
4	because his actual testimony was that he relied not at all
5	on the general creditworthiness of MMA.
6	So there's no absolutely no foundation for the
7	witness to make the conclusion, because his testimony
8	contradicts it. But
9	THE COURT: So what I'm going to do is I'm going
10	to allow the question and I'm going overrule the objection,
11	but in we don't have a jury, and as we get to the legal
12	argument and the legal consequence of the answer that we're
13	going to get, Mr. Keach, the door is wide open for you at
14	that point.

19	Q Mr. Hansen, in providing freight services in connection
20	with the interchange of traffic with the MMA did the Irving
21	railroads rely upon MMA's general creditworthiness?
22	A Absolutely not.
23	Q What did the Irving railroads rely upon?
24	A We relied on them being paid out of the ISS system,
25	which I felt was secure, and that meant I would be paid

That is correct. 4 Α 5 Mr. Hansen, did anyone ever advise you that MMA's 0 6 ability to pay the Irving railroads was dependent upon MMA 7 being able to draw down on a line of credit with Wheeling 8 and Lake Erie Railroad? 9 Α No. Were you aware that the MMA had a line of credit with 10 0 11 the Wheeling and Lake Erie Railroad? 12 No, I was not. 9	Q Mr. Hansen, good afternoon.	
10	A Good afternoon.	
11	Q Would you for my benefit repeat your title with J.D.	
12	Irving?	
13	A I am the general manager corporate credit and finance.	
14	Q And in that capacity do you handle corporate finance	
15	and credit matters not only for J.D. Irving but all of its	
16	wholly-owned subsidiaries?	
17	A Yes, I do.	
18	Q And among those wholly-owned subsidiaries were the	
19	Irving railroads that we have referred to today?	
20	A Yes, they are.	
21	Q As well as the various Irving paper entities that have	
22	been referred to, correct?	
23	A That is correct.	
24	Q How many people do you have working for you at J.D.	
25	Irving on the credit and corporate credit and control

2	A Thirteen.
3	Q Okay. And you testified earlier that one of the
4	reasons that the Irving railroads opted out of ISS was that
5	the Irving entities did not have the capacity to handle
6	participation in the ISS. Did you mean that you didn't have
7	the resource capacity despite the 13 people who work for
8	J.D. Irving?
9	A That's correct.
10	Q So the 13 people who otherwise handled credit matters
11	for multiple paper companies and multiple railroads couldn't
12	have handled participation in the ISS?
13	A That is correct.
14	Q When did you actually first become aware of the fact
15	that something called ISS existed?
16	A When it was brought to my attention from Ian Simpson
17	when it was proposed to Ian by Mr. Grindrod, so that would
18	have been some time in July or June or July of 2012 I
19	think.
20	Q All right. So you did business with MMA or I should
21	say the Irving empire did business with MMA for nine years?
22	A That's correct.
23	Q And during that entire nine-year period you had no idea
24	what the ISS was?
25	A Never heard of it.

1	Q And so it's fair to say that any decision you made at
2	least with respect to your credit decision, any decision
3	that was made by Irving not to participate in ISS for that
4	nine-year period was not a function of your recommendation,
5	correct?
6	A That is correct.
7	Q Was it and do you know who did recommend that you
8	not participate in ISS?
9	A I personally don't know, no.
10	Q Okay. So you really have no idea why you didn't
11	participate in ISS for those nine years?
12	A That is correct.
13	Q I want to go to something you said early in your
14	testimony. You indicated that from your in your opinion
15	if the Irving railroads were to refuse to interchange with
16	MMA that or had refused to interchange with MMA that that
17	would have been devastates to MMA's business. Do you recall
18	your testimony?
19	A That's correct.
20	Q Okay. Do you know how many track miles MMA owns or
21	owned before it sold them?
22	A No, I do not.
23	Q Do you know where those tracks go?
24	A No, I do not.
25	Q Do you know which customers those tracks serviced?

1	A I do not.
2	Q And you refer to do the fact that the railroad might be
3	landlocked excuse me do you know which customers it
4	would not have been able to service?
5	A They would not have been able to service the Irving
6	companies.
7	Q And do you know other than the Irving companies which
8	customers it would not have been able to service?
9	A I do not.
10	Q So you really have no idea what the impact would have
11	been on MMA's business, you just know it wouldn't have been
12	able to service your company, correct?
13	A Correct.
14	Q Are you familiar with Central Maine Quebec Railroad?
15	A Yes, I am.
16	Q Do you know they're the successor to MMA with respect
17	to the former track miles that MMA owned?
18	A Correct.
19	Q And do you know that they're not shipping oil to the
20	Irving Oil Company and refinery in New Brunswick?
21	A I know that, yes.
22	Q All right. And yet they're continuing to operate are

7 A That's correct	
8 Q And in fact as	you told me last night if MMA at any
9 time had not paid t	he amounts due to the Irving railroads,
10 again prior to the	oil shipments we're talking now, you
11 simply would have p	aid yourself from the amounts due from
12 the paper companies	, correct?
13 A No, I didn't s	ay that.
14 Q But you said y	ou would have withheld the wires,
15 correct?	
16 A That is correc	t.
17 Q And if notwith	standing your withholding the wires they
18 had not paid what w	ould you have done?
19 A I would have h	eld the wire until they paid.
20 Q And if they ha	dn't paid at all would you have offset
21 against the amounts	due given that you had the option to do
22 so?	
23 A No.	
24 Q And why not?	
25 A Well as I expl	ained to the judge it's too messy.

5 Q Right. But you have no doubt that you had the ab

7 A Oh, I certainly had the ability, yes.	
8 Q Okay. And in fact the reason you felt this arrar	ngement
9 was secure was because you had the ability to set off	if you
10 needed to, right?	
11 A I controlled the money.	
12 Q Right. And the reason you were secure in this	
13 arrangement is because you controlled the money and be	ecause
14 Irving Paper almost always owed MMA more money than MM	1A owed
15 the railroads, correct?	
16 A Correct.	
17 Q Now you've testified with respect to when you bec	came
18 less comforted by this secured credit arrangement and	that
19 was when the oil shipments began to be a greater perce	entage
20 of the total shipments handled by MMA; is that correct	:?
21 A That's correct.	
22 Q Okay. And the reason you became less comfortable	) was
23 because as the oil shipments became of greater portion	ı of

2	collateralized at that point, correct?
3	A Correct.
4	Q And it's at that point in time that you discussed with
5	Mr. Simpson the way is ISS worked, right?
6	A Correct.
7	Q And let's just take the oil shipments, for example.
8	CP, Canadian Pacific, which we'll refer to as CP, as you
9	understand was the originating railroad, right, with respect
10	to those shipments?
11	A Correct.
12	Q And that means that CP was the first railroad to ship
13	them and was responsible for making sure that those
14	shipments arrived at their ultimate destination, correct?
15	A Correct.
16	Q Okay. And there might have been a number of railroads'
17	tracks that CP went over from North Dakota until those
18	shipments eventually arrived at the Irving oil refinery in
19	New Brunswick, correct?
20	A Correct.
21	Q So there may have been a series of interchange
22	arrangements between CP and various railroads along the way,
23	correct?
24	A Correct.
25	Q Who did you understand was liable to pay let me back

2	Do you understand the term receiving railroad?
3	A No, I don't.
4	Q If I told you that there's the originating railroad
5	which we've just agreed was CP, that the receiving railroads
6	were the railroads along the way that received the freight.
7	A Uh-huh.
8	Q Would that make sense to you?
9	A Yeah.
10	Q Okay. Do you know who was ultimately responsible to
11	pay the receiving railroads in the scenario that we just
12	talked about?
13	A In my opinion it's ISS.
14	Q Okay. Do you have an understanding about the ISS
15	system that under the ISS system and the circumstance we
16	just described that even if CP had not collected from the
17	people who had agreed to pay it that CP was responsible to
18	pay all of the receiving railroads the amounts they were
19	due?
20	A No, the way I understand it is that CP were responsible
21	to pay the money into ISS. They are not responsible to pay
22	every individual carrier. ISS are responsible to pay all
23	the interconnecting lines.
24	Q Right. But who has to put the money into ISS?
25	A CP.

	Page 80	
1	Q And did CP have to put that money in even if the person	
2	it was shipping to didn't pay it?	
3	A Correct, yes.	
4	Q Okay. And if all of the receiving railroads along the	
5	path are members of ISS all of those receiving railroads get	
6	paid through the ISS system, correct?	
7	A Correct.	
8	Q And they're comforted by the fact that they're going to	
9	get paid because CP has to put the money in whether it	
10	collects or not, right?	
11	A Right.	
12	Q And the only reason why the Irving railroads were not	
13	similarly secure was because Irving had decided not to be a	
14	member of ISS, correct?	
15	A Correct.	
16	Q And in fact because the Irving railroads are not	
17	members of ISS you had to have a participating railroad in	
18	ISS collect the money that otherwise would have been paid to	
19	you had you been a member, correct?	
20	A Correct.	
21	Q And you decided that that party would be MMA, correct?	
22	A Correct.	
23	Q Okay. I'm going to and I assume these are all still	
24	in front of you ask you to take a look at Irving

1	A Irving Exhibit 5. Okay.
2	Q Now, I'll just ask you to turn to the second page,
3	which is the term sheet entitled at the top revision of
4	payment terms with NBSR needed. Do you see that?
5	A Yeah.
6	Q And you went through a whole series of emails with
7	Mr. Lepene, and I won't repeat that exercise, but the
8	consequence of that email traffic was that the Irving
9	railroads agreed to these terms and conditions, correct?
10	A Correct.
11	Q Yes?
12	A Yes.
13	Q Okay. And I want to I want you to look at the
14	bullets on that page, the bullet points. Do you see them?
15	A What are you referring to as bullet points?
16	Q Well little dots, the paragraphs next to the little
17	dots.
18	A Okay.
19	Q Okay? And I think one, two, three, four, the fifth one
20	down is a paragraph that begins with unreceived traffic.
21	See that?
22	A Yes.
23	Q And would you agree with me that unreceived traffic
24	means when MMA and the Irving railroads are receiving
25	railroads under the scenario that you and I just talked

2	A Correct.
3	Q Okay. And that was largely true of the oil shipments
4	because CP was the originating railroad?
5	A Correct.
6	Q All right. And so what you are being told in this term
7	sheet and what you agreed to is the following.
8	"Receive traffic the freight charges must be
9	apportioned through the interlining settlement system.
10	MMA typically does not receive payment through ISS for
11	45 to 60 days after handling the car on average."
12	Do you see that?
13	A Yes.
14	Q All right. So you understood and agreed that there
15	would be a 45 to 60-day delay, at a minimum, between the
16	time you handled freight and the time you would be paid,
17	correct?
18	A Yes, correct.
19	Q And then the arrangement with respect to the other
20	traffic, traffic on which either of you was an originating
21	carrier, the so-called local traffic, that was going to
22	continue to be protected by your secured credit arrangement
23	through the swap, correct?
24	A It was protected by the swap arrangement.
25	Q Right. So you had essentially two categories. You

2	with respect to the local traffic, correct?
3	A I was protected on the local traffic by the swap, yes.
4	Q Right. And with respect to the oil shipments you
5	understood that notwithstanding the fact that your railroad
6	had handled the traffic that you were going to have to wait
7	45 to 60 days from the time that obligation was incurred to
8	get paid once MMA collected on the ISS system?
9	A Correct.
10	Q Okay. You mentioned that you were you felt secure
11	after talking to Mr. Simpson about the second half of that
12	arrangement, the ISS payments. Why is it that you felt
13	secure about the ISS?
14	A Well, I felt secure because ISS would have the money
15	from the originating carrier, that the funds owed to MMA by
16	the originating carrier would be given to them through the
17	ISS system and they would have the money. So, I felt
18	comfortable that the money would go from ISS into MMA and
19	that they would get the money. I have no problems thinking
20	they would not get the money.
21	Q Right.
22	A And that gave me comfort that at least if they had the
23	money then they had to give it to me shortly thereafter.
24	Q Right. Because CP was paying the money in and ISS was
25	paying it out, correct?

1	A Correct.
2	Q And those were the two entities that you were relying
3	on?
4	A Yes.
5	Q When we talked last night, Mr. Hansen, you indicated
6	that you pulled a Dunn & Bradstreet report on MMA when you
7	first began to do business with them, correct?
8	A That is correct.
9	Q And that under your system you automatically received
10	Dunn & Bradstreet reports on them continually when there
11	were any changes, correct?
12	A Correct.
13	THE COURT: And then that date would be 2003
14	initially doing business with them?
15	THE WITNESS: Correct.
16	THE COURT: Thank you.
17	BY MR. KEACH:
18	Q And you received them automatically under your system
19	through the entire time you were doing business with MMA,
20	correct?
21	A Correct.
22	Q And as we discussed last night you're aware that Dunn &
23	Bradstreet reports show liens on assets, right?
24	A Correct.
25	Q And you read those Dunn & Bradstreet reports?

1	A Yes.
2	Q Okay. You also told me last night that you didn't rely
3	on the Dunn & Bradstreet reports, that you didn't really
4	care frankly what was in them because you were comfortable
5	that you were relying on your swap system, your secured
6	credit system, and you were relying on your comfort with
7	ISS, and that's why you were doing business, not anything
8	that was in the D&B, correct?
9	A That's correct.
10	Q Mr. Hansen, I'm going to ask you to take a look at
11	Irving Exhibit 9. And Irving Exhibit 9, notwithstanding the
12	header at the top, appears to be an email from Mr. Gardner
13	to Mr. Simpson, correct?
14	A Yes, correct.
15	Q I'm talking about the top email on the page.
16	A Yes.
17	Q And the note by Mr. Gardner to Mr. Simpson is that
18	because of this holiday, CN and CP had an extra date of pay
19	what is due. Do you see that?
20	A That is correct, yes.
21	Q And this is consistent with your understanding, right,
22	that Canadian National and CP were the parties paying into
23	the ISS, in turn the money would then come out of ISS and
24	arrive in your hands, correct?
25	A Correct.

6	A Yes, I do.
7	Q And you told me you had no idea whether they could or
8	they couldn't, right?
9	A That's correct.
10	Q Is that still your answer?
11	A No, I asked Ian last night, and he said, no, that

5	A The Brunswick and Maine Railways, specifically it's the

7	the Main Northern Railway.
8	Q And how long have you held those positions?
9	A For a little over 11 years.
10	Q Do you have a college degree?
11	A Yes, I have a business degree from Acadian University,
12	and a masters of business from the University of Western
13	Ontario.
14	Q Okay. And briefly, could you give us your employment
15	history prior to your employment by the, what I'm going to
16	refer to as the Irving Railroads, as we've referred to them
17	in during Mr. Hansen's testimony?
18	A I spent six years out of university with a McKane Foods
19	Company on the transportation side, and 12 years with a J.D.
20	Irving Trucking Company, Sunberry Transport, and then the
21	last 11 years with the railway.
22	Q Okay. And what are your duties and responsibilities
23	with the railroad?

2	Q And what is your title again?
3	A General manager.
4	Q And you indicated that those railroads include New
5	Brunswick Southern Railway Company, the Main Northern
6	Railway Company, and the Eastern Maine Railway Company?
7	A Yes.
8	Q Now, are you familiar with the what's been referred
9	to as the ISS or Interlying Settlement System?
10	A Yes, I wouldn't be an expert by any means, but yes, I
11	am certainly familiar with.
12	Q Okay. And can what is your understanding of how the
13	Interlying Settlement System works?
14	A It's for members, for railroads who are part of the
15	ISS, that's a central clearinghouse. There is one billing
16	railroad, there may be multiple interlying railroads, also
17	member of ISS railroads that could be part of a particular
18	shipment, the car load that moves across the country.
19	And once per month, all of the receivables, payables
20	get netted out through the ISS program, and the net amounts,
21	some railroads pay in, some railroads get receivables out,
22	but it's all netted out. It's a way to simplify the billing
23	process for shippers across North America.
24	Q Did the MMA participate in the ISS?
25	A Yes, they did.

	Page 92
1	Q Okay. Did the Irving Railroads participate in the ISS?
2	A No.
3	Q And why not?
4	A Well, you have to go back a little bit to the history
5	of our company. We're a little bit unique, in that we
6	interchange with more than one railroad, specifically we
7	interchange a lot of our business with CU, with the Pan Am
8	Railway, and with, at the time, the MMA.
9	Prior to the MMA forming in 2003, the CN arrangement
10	that we had with them, the CN were the ISS billing railroad,
11	Pan Am were the ISS billing railroad. That was the
12	situation they wanted, it was a situation our customers
13	wanted, and we were comfortable with that, we were fine with
14	that, it was very consistent.
15	Q And let me just interrupt when you use the term billing
16	railroad, can you tell us what you mean by that?
17	A Yeah. So if in the case when we're talking about as
18	discussed earlier, the Irving Railroads or sorry, the Irving
19	customer, Irving Paper as an example, they may have freight
20	going to Chicago as an example. There are different moving
21	options. They could go through the CM to get to Chicago, it
22	could go Pan Am to get to Chicago, it could go the MMA to
23	get to Chicago.
24	We would provide our rate to those three railroads, who
25	in turn had the commercial relationship with the shippers,

Γ

	Page 93
1	in this case, Irving Paper. And we would get paid through
2	the ISS settlement from those three railroads. We didn't
3	get we weren't in the ISS settlement, but those three
4	railroads were in the ISS, and they in turn paid us, and it
5	simplified the process for the shippers.
6	Q Now, you were I think explaining why the decision was
7	made not to participate in the ISS.
8	A So there's a lot to be a member of the ISS. So you
9	have to have, when we talk about resources, there's a lot of
10	expertise needed. If we were to become an ISS railroad
11	after CN and Pan Am, and then ultimately MMA all were ISS as
12	well, there'd be a significant duplication of efforts that
13	really made no sense.
14	There's a lot of expertise needed in the system itself
15	that could be learned; however, you also have a credit
16	related issue, it's having a relationship with all the other
17	railroads in North America, setting rates with all the other
18	railroads, the car ordering process, so there's a lot to it.
19	Now, when the other partner railways are already an ISS
20	carrier, it's quite redundant for us to do the same thing,
21	and we're not unique in this. I mean, not every railroad in
22	North America is an ISS railroad.
23	Q Was the decision not to participate in the ISS
24	influenced in any way by the credit worthiness of the MMA?
25	A No.

4	A Yes.
5	Q from Mr. Hansen. Can you just describe to the Court
6	exactly what was involved in terms of that interchange of
7	traffic?
8	A So railroads generally unless there's other
9	arrangements, but generally the railroads haul the traffic,
10	haul the rail carriers on their railroads, with their
11	locomotives. They get to a point where it's the end of
12	their line, it's usually an interchange point, usually a
13	yard, a common yard.
14	And the locomotives are decoupled, the train is put
15	into a pre-determined siding, and the other railroad that
16	you interchange with hooks on to those railcars and then
17	they continue and that to go through North America.
18	On the other side of it, that same interchange carrier,
19	if it was the MMA and Brownville Junction in this particular
20	case, they would have a train with railcars destined for
21	customers on our line, they would decouple their locomotives
22	from that train, we would hook onto that, and when we would
23	bring it onto our railroad.
24	Q What would have been the impact on MMA's operations if
25	it was unable to interchange traffic with the Irving

1	Railroad?
2	A I think it would've been significant.
3	Q And how so?
4	A Significant in a negative way. We saw the business
5	from the Main Northern and the New Brunswick Southern
6	Railway that was interchanged each and every day with the
7	MMA. And we also had a good understanding of the general
8	business on their railroad.
9	And, you know, we comprised a significant piece. And
10	we know the MMA also had from a commercial standpoint, from
11	a sales and earnings standpoint, put a lot of effort into
12	attracting and trying to attract more business in and out of
13	Saint John on our railroad.
14	Q Did the MMA in that regard directly solicit the Irving
15	Paper Companies for business?
16	A Yes.
17	MR. KEACH: Your Honor, objection, foundation,
18	personal knowledge of the witness.
19	THE COURT: Okay.
20	MR. KEACH: He hasn't testified he knows anything
21	about Irving Paper or MMA.
22	THE COURT: Mr. Lepene, do you want to ask a few
23	questions?
24	MR. LEPENE: Yes. Yes, certainly.
25	BY MR. LEPENE:

1	Q Do you have, Mr. Simpson, an understanding of the
2	business relationship that existed as between the MMA and
3	the Irving Paper Companies?
4	A Yes, I know it very well. You know, all the again,
5	we're unique in that we have three railroads that our
6	railroad interchanges with. And so any business in and out
7	of Saint John, any business in and out of the Main Northern
8	Railway, we would handle it, whether it's originating in
9	Saint John on our railroad or terminating on the railroad.
10	So a shipper like Irving Paper, again might go back and
11	have three railcars shipping today, we would pick all three
12	cars up. One could go CN, one could go Pan Am, one could go
13	the MMA. So we would see that. We would do the interchange
14	with those three respective railroads.
15	The pricing, the other railroads involved, we would not
16	see that. And that was a good way to keep things
17	competitive, and gave the shippers, I mean, in and out of
18	region many more options.
19	Q Do you know whether the MMA solicited the Irving Paper
20	Companies for business?
21	A Yes.
22	Q And how do you know that?
23	A In some cases I've been in the same meeting with them,
24	or they've called in advance, senior people, such as Bob
25	Grindrod, their President, even their Chairman, Mr. Burkhart

And what is the name of that railroad? 8 Q 9 Α The Central Maine and Quebec Railroad, the CMQR. 10 Okay. Do you know whether the CMQR has a business 0 11 relationship with the Irving Paper Companies? 12 Yes, they do. Α 13 Are the Irving Paper Companies a substantial customer 0 of the CMQR? 14 15 Α I would say they are, yes. I don't know the specific 16 number relative to all their other shippers, but it would be 17 business that would be important to them that they're trying 18 to grow. Would there have been alternative routes that MMA could 19 0 20 have utilized in order to transport oil that it had picked 21 up from Canadian Pacific in order to get that oil to Saint 22 John, New Brunswick if it did not interchange that traffic 23 with the MMA -- excuse me, with the Irving Railroads? 24 Α The final destination at the refinery has to be 25 delivered by us, we're the only railroad there. But we do

2	CN. The direct, the most direct route was coming from
3	Montreal to Saint John by Lac Megantic, so but the
4	business was moving on all three railroads. I'm not sure if
5	I answered the question completely but.
6	Q You heard the testimony previously from Mr. Hansen
7	regarding the arrangement that had been reached with the MMA
8	regarding the receipt of payments for freight services
9	associated with oil shipments immediately upon MMA's receipt
10	of payment from the ISS. Do you recall that testimony?
11	A Yes.
12	Q And there was testimony regarding various e-mails that
13	were exchanged.
14	A Yes.
15	Q You were a party to some of those e-mails, correct?
16	A Correct.
17	Q Did the New Brunswick Southern Railway Company rely
18	upon the agreement that had been reached with the MMA that
19	it would be paid it, being the New Brunswick Southern
20	Railway Company would be paid immediately its charges for
21	services related to oil shipments upon MMA's receipt of
22	payment out of the ISS?
23	A We absolutely did. We expected prompt payment, because
24	when ISS when they received their money from the ISS,
25	they were receiving their share and our share, and that's

2	paid.
3	Q And that was the agreement that was in place with the
4	Montreal Main & Atlantic?
5	A That is correct.
6	Q That was an agreement that you worked out initially
7	with Mr. Grindrod?
8	A Mr. Grindrod approached me, we spoke, and then he put
9	it subsequently in writing in the e-mail, and it was of
10	great help to their railroad to have that in place.
11	Q In providing freight services in connection with the
12	interchange of traffic with the MMA, did the Irving
13	Railroads rely upon MMA's general creditworthiness?
14	A No. You know, the important thing was we did a lot of
15	business back and forth, and the swaps were very important
16	to have in place.
17	Q And as far as the oil shipments were concerned?
18	A On the oil shipments, we were relying on the ISS
19	payments.
20	Q Did anyone ever advise you that MMA's ability to pay
21	the Irving Railroads was dependent upon MMA being able to
22	draw down on a line of credit with the Wheeling and Lake
23	Erie Railway Company?
24	A No, I wasn't familiar with that.
25	Q Did you even know there was a line of credit with the

1	Q All right. In that circumstance, and let's assume CP	
2	is the originating carrier, CP pays money into the ISS	
3	system, correct?	
4	A Correct.	
5	Q All right. Does CP keep its share out first assuming	
6	well, let me back up. Assuming CP has collected from	
7	whoever was liable, right, it doesn't pay the entire amount	
8	into the system, right, it keeps its share and pays the	
9	balance under the system?	
10	A That part I don't know.	
11	Q But in any event, they pay money into the system, and	
12	the clearinghouse then does what with the money?	
13	A They would have the all the payables and receivables	
14	from all of the interlying or the ISS carriers, would be put	
15	into the clearinghouse, all the receivables then netted out,	
16	and then a net check would be put in that.	
17	So in that example, I would think CP would have to put	
18	their share in as well.	
19	Q And then the consequence of that is that all of the	
20	parties who are participating members of the ISS get paid	
21	through that system, correct?	
22	A That is correct.	
23	Q And all of those people get paid in the distribution	
24	first before anybody who's outside the system gets paid,	
25	correct?

1	A That would be correct.
2	Q All right. So by opting out, and having MMA collect
3	for you, you virtually ensure that you would be last in line
4	for those payments, right?
5	A Opting out though is more than the decision as it
6	relates to the credit.
7	Q No, I understand that.
8	A I explained earlier how
9	Q Mr. Simpson, I understand that
10	A Right.
11	Q I'm asking one simple question.
12	By opting out of the system, you ensured you would be
13	last, right, just with respect to the payments? I
14	appreciate you had other reasons, and we'll get to those,
15	but
16	A Yeah, yeah.
17	Q you ensured you would be last with respect to the
18	payments, correct?
19	A Well, we yes, that's correct.
20	Q All right. Now, with respect to the system you said
21	with respect to what you were relying on, is that you
22	expected that when MMA received money from the system, you
23	would get quote, our share of the system, what did you mean
24	our share of the money. What did you mean by that?
25	A The amount owed to us with accrued shipments, and the

1	share being the haulage amount that was agreed upon that we
2	would be paid.
3	Q All right. And that's the amount you would have been
4	paid through the system had you been a member of the system,
5	correct?
6	A Correct.
7	Q You weren't looking to MMA's share of that collection
8	or a payment, correct?
9	A We were looking for our share that was owed to us.
10	Q Okay. And it would've been owed by the CP or by the
11	system, but you chose essentially to have MMA collect the
12	money and rely on MMA to remit, in accordance with the
13	arrangement that I went through with Mr. Hansen, correct?
14	A Yes.
15	Q And as I said to Mr. Hansen, and as he agreed, you
16	understood that that meant that you were not going to be
17	paid for 60 or more days after the freight was actually
18	handled, correct?
19	A That is correct.
20	Q All right.
21	A We knew that the member companies specifically the
22	Class I's, BNSF, CP, CSXT would be originating railroads in
23	those cases, and all those ISS carriers, it's very important
24	that they pay in each month.
25	Q Okay.

1	A So there was a question of the days that it would take
2	to get paid, but the money would be there.
3	Q Because the other carriers would pay it in?
4	A The other carriers were paying in, and the MMA as a
5	member ISS carrier, they also had to keep their accounts
6	clear and have any money they were paying into the other ISS
7	carriers there by the second business day of each month.
8	Q Right. And they had to keep their accounts clear with
9	all of the other ISS carriers, right?
10	A That's correct.
11	Q It was important for them to pay all of those people
12	first to be a member of ISS, correct?
13	A Correct.
14	Q In response to Mr. Lepene's question, he asked you
15	about the bringing of the oil to the Irving Refinery in New
16	Brunswick.
17	A Yes.
18	Q And you indicated that the route used through MMA's
19	tracks and through your tracks, was the most direct route.
20	I assume by that answer, you meant that it wasn't the only
21	route though, right?
22	A It was the only route from the only way MMA could
23	get traffic into Saint John would be through us.
24	Q Well, everybody had to go through you, correct?
25	A For the final delivery, yes.

1	Q Right. But it wasn't necessarily the case that they
2	couldn't have just interchanged with other railroads and
3	generated the same result, it just would've been more
4	indirect, correct?
5	A (No response)
6	Q You mentioned that you interchanged at that final point
7	with Pan Am, correct?
8	A We did bring oil directly from some of those same
9	origin railroads, CP, BNSF, CSXT into Saint John via Pan Am,
10	and via CN. But they were competing against the MMA, so
11	they have MMA route the traffic and then turn it over to one
12	of those railroads economically would not have made any
13	sense.
14	Q Well, do you know MMA's business relationship with Pan
15	Am? Are you familiar with it?
16	A Pretty familiar, yes.
17	Q Well, they do interchange with Pan Am, don't they?
18	A Not on business like this they wouldn't.
19	Q Well, they do interchange with Pan Am, though, don't
20	they?
21	A Local traffic, yes, they do.
22	Q Right. And they could have here, you're just saying
23	you don't think it would've been as good business as doing
24	business with you. But you're not telling me it's
25	impossible

Q 9 I'm not sure if that was still a question. Α From a 10 shipper perspective, it would not make economic sense when 11 they could go directly with Pan Am or directly with CN, why 12 would you bring another railroad into the mix, it just adds 13 cost, complexity and that's the advantage of having multiple 14 railroads competing for your business. 15 0 So you're saying it might not have been the best 16 business, not that they couldn't get there, in your opinion? 17 Α Correct. 18 MR. KEACH: Your Honor, can I have a moment? 19 (Pause) 20 Q Mr. Simpson, you mentioned you were familiar with the 21 relationship between MMA and the Irving Paper entities, 22 correct? 23 Α Yes. 24 Do you know what happened to that relationship after Q 25 the derailment on July 6th?

3	Q Did you stop doing business with MMA following the
4	derailment at some point? Did Irving Paper, excuse me, stop
5	doing business with MMA after the derailment at some point?
6	A No. There would still have been clay coming in from
7	Searsport, but as far as outbound volume, there was no
8	terminating points for Irving Paper on the MMA line with the
9	halt, with the track not working through Lac Megantic.
10	Q Right. So you Irving Paper did not ship product,
11	outgoing product on MMA, correct?
12	A To my knowledge, no, there was no way to get to market.
13	Q Do you know if the MMA continued to operate
14	continuously after the derailment until it was sold?
15	A Aspects of it. They were not continuous through the

17	Q Well, it was severed in Canada, right? It was severed
18	at Lac Megantic.
19	A Yes, the main line between
20	Q It was severed at Lac Megantic, right?
21	A Yes, but that halted traffic between their main line

1	Q Okay. So with respect to MMA, the U.S. railroad, you
2	do understand it operated continually even after you stopped

5	A I'm not sure of your question.
6	Q MMA did not cease to operate
7	A Right.
8	Q when Irving Paper stopped shipping paper products on

10	A There was no where to deliver the there was no

13	Q I'm not trying to quibble with your decision not to
14	ship. But your decision not to ship did not close down MMA,
15	did it?
16	A Your decision timed with Irving Paper?
17	Q Irving Paper's decision not to ship did not cause the
18	discontinuation of service generally that was being provided
19	by MMA to other customers.
20	A I'm not sure I can answer that with any expert
21	Q Do you

7	shipping paper products, right?
8	A Correct.
9	Q And do you know if MMA was or MMA Canada were
10	hauling any oil after the derailment?
11	A Being oil that if there was any residual oil that
12	was stranded between Lac Megantic and Brownville Junction, I
13	will say days after the explosion, that had not yet reached
14	our railroad, that would be the only crude that had moved
15	after the accident and to this day, that's the only crude
16	that's moved on the MMA.
17	Q Right. Other than that, MMA and MMA-C did not haul

2	REDIRECT EXAMINATION
3	BY MR. LEPENE:
4	Q Mr. Simpson, with respect to the question that Mr.
5	Keach asked about Irving Paper deciding not to ship product
6	following the derailment and the effect of that did not
7	cause a discontinuance of service by the MMA, they didn't go
8	out of business. Do you recall him asking you that
9	question?
10	A Yes.
11	Q The decision by Irving Paper, however, not to ship
12	would have resulted in a significant reduction in revenue
13	for the MMA, would it not?
14	A I would think so, yes.
15	Q And similarly, with respect to the fact that the MMA
16	did not after the accident carry oil it's the fact that
17	it didn't carry any oil would've resulted in a significant
18	reduction in revenue for the MMA; is that correct?
19	A Yes. The crude was a significant piece of their
20	business base.
21	MR. LEPENE: That's all I have, Your Honor.
22	THE COURT: Thank you.
23	MR. KEACH: Nothing further, Your Honor.

5	them either by courier or electronically, and that way we
6	won't all have to wait around for us to do that.
7	I mean, we've agreed on what they are. I'll
8	certainly supply Mr. Lepene with copies, so that he can
9	verify them. But rather than hold the Court up, and hold
10	everybody up, I know it's been a long day for the Court, and
11	some other matters as well, we would propose to do that
12	unless Mr. Lepene has a dying desire to close, I would
13	suggest that we submit post-trial briefs, if we wish to
14	within a certain number of days and close in that fashion.
15	THE COURT: Let me just deal with I think that
16	makes great sense. Let me just check on the exhibits.
17	So the trustee doesn't have any exhibits other
18	than the A through U under No. 7 of the stipulation,
19	correct?
20	MR. KEACH: Well, we're going to put in all the
21	exhibits that are in the stipulation, Your Honor. We're
22	just going to put them in because they were agreed to be
23	admitted by stipulation, they're not attached to any
24	particular witness.
25	THE COURT: Fair enough.

1	MR. KEACH: I just want to put them in the issue
2	of completeness and the stipulation.
3	THE COURT: Great. Is there anything in addition
4	to those exhibits that you need to put in?
5	MR. KEACH: No.
6	THE COURT: Okay. Mr. Lepene?
7	MR. LEPENE: Well, Your Honor, I don't know about
8	a dying desire, I hate to use that term when it relates to
9	myself, but I would like the opportunity to briefly address
10	the evidence that you've heard today and some of these
11	issues, just to put all of this into context. And what I
12	would ask if you could give us five minutes to collect our
13	thoughts, and then I would propose to be very brief in that
14	regard.
15	THE COURT: Sure. So let me just follow-up now.
16	I'm we're here to hear this, this is a significant claim
17	and we want to make sure it gets resolved, and get the
18	process that's due to you.
19	In addition to what you'd like to say today, do
20	you anticipate wishing to file anything in writing?
21	MR. LEPENE: Well, I think again I have not had an
22	opportunity to carefully review the reply that Mr. Keach
23	filed an hour and a half before the hearing, so I would like
24	to reserve the right, I mean, after I've had a chance to
25	really study the paper to perhaps submit something with

So would you like five 3 minutes to gather your thoughts, and then you want to also 4 at that point provide some oral --5 MR. LEPENE: Yes. 6 THE COURT: -- summing of what we heard today? 7 MR. LEPENE: Yes, I would like to do that, Your 8 Honor. 9 THE COURT: And what are your thoughts of how long 10 you'd like to orally sum up? 11 MR. LEPENE: I think ten minutes max, Your Honor, 12 I just -- I have I think at this point just a few points 13 that I would like to make for the Court's benefit and then 14 we can all depart for the weekend. 15 THE COURT: And, Mr. Keach, how long do you wish 16 to orally sum up, if at all? 17 MR. KEACH: I -- well, I won't be able to resist 18 if Mr. Lepene goes, but I'm sure I can do it in ten minutes 19 or less, probably five minutes or less. 20 THE COURT: Fair enough. Just I want to make 21 arrangements with the CSOs and --22 MR. KEACH: And understanding that 5 o'clock is a 23 magic hour at times, I think we can both assure you we'll be well out of here before 5. 24 MR. LEPENE: Without a doubt, Your Honor. 25

1	THE COURT: Wonderful. It's a lawyer's commitment
2	I've heard right there.
3	All right. So why don't we take a brief break and
4	be back by 4:30, does that give you time?
5	MR. LEPENE: That would be fine, Your Honor.
6	THE COURT: Court will be in recess.
7	THE CLERK: All rise, please.

10	THE COURT: Mr. Lepene.
11	MR. LEPENE: Thank you, Your Honor, and thank you
12	for taking the time this afternoon to hear us.
13	THE COURT: Absolutely, it's an important issue.
14	MR. LEPENE: Just several points that I would like
15	to make and I will be brief.
16	The first point again raised in the trustee's
17	objection and in their reply as I understand it and read it
18	this afternoon or early late morning, I should say, do
19	interlying claims like this qualify.
20	And we've submitted papers with respect to this.
21	We think the trustee has simply misread the Boston and Maine
22	decisions, but we would also point out and we did cite this
23	in our paper, the fact is, the per diem claims in the Boston
24	and Maine case following the decision of the First Circuit
25	were recognized by the district court in the plan of

1	reorganization that was confirmed in the Boston and Maine
2	case, as being six month claims that were entitled to
3	priority.
4	So this idea that per diem claims which the
5	trustee concedes are equivalent to the claims that we are
6	asserting here, the underlying claims, as a matter of
7	controlling law in the First Circuit, are not recognized as
8	six month claims is just flat out wrong. That's just not
9	the law.
10	Mr. Keach cites also the McClain Industries case,
11	he mentioned it in his argument, it's not a railroad
12	reorganization case. It's a Chapter 11 of a steamship
13	company. And he refers and this is a decision of the
14	Bankruptcy Court, Southern District of New York, so we're
15	not talking about anyone within the First Circuit
16	THE COURT: Right.
17	MR. LEPENE: but the congressional provision
18	that he is talking about that wasn't adopted, addressed the
19	same question that the First Circuit had dealt with in the
20	first Boston and Maine case, which is whether these types of
21	claims would be entitled or required to be paid immediately
22	during the course of the reorganization. It wasn't intended
23	to address the question of the six month priority rule.
24	So McClain Industries has no relevance, no bearing
25	whatsoever.

Your Honor, I think again we're down to the issue of reliance on the general credit of the MMA, or whether the expectation of the parties is or was that we would be paid out of current operating revenue.

5 You heard all of the testimony in that regard. 6 You have the exhibits. I would just make a few points. 7 When you -- when someone relies on general credit, they 8 don't identify the specific source of the payment from which 9 they are expecting to be paid. General credit -- and the 10 First Circuit in adopting that standard, words matter. It 11 was an issue of whether you provide the services in reliance 12 on general credit or whether you were providing the services 13 with the expectation that they would be paid out of current 14 operating revenue. That's the standard that you've got to deal with because that's what the First Circuit tells us. 15

16 General credit considerations, when someone is
17 providing services in reliance on general credit, they don't
18 identify the specific source of payment. What they do is
19 they assess the overall financial condition of the company.
20 You heard the evidence. We didn't assess the

21 financial condition of the company because we weren't 22 relying on the MMA's general credit. Here, the parties 23 specifically identified the specific source of payment, and 24 it was operating revenue.

1 separate out the swap and the oil payments, they are two
2 separate matters. Even if the swap arrangement could be
3 characterized as Mr. Keach would like to characterize it as
4 the extension of secured credit, you know, we were taking
5 collateral with respect to that, that's got nothing to do
6 with the agreement that dealt with the payment for the oil
7 shipments, nothing to do with that whatsoever.

8 And with respect to the oil shipments, the parties 9 were very specific, that with respect to that, we would be 10 paid immediately following the payment that was received by 11 the MMA from the ISS. That's the evidence that you heard. 12 There is no evidence in this record to the contrary, 13 absolutely none.

Now, the fact and Mr. Keach made a point of this,
that the other railroads who participate in the ISS in terms
of those that were involved in the movement of oil from
North Dakota to Saint John, they would -- because they're
participants in the ISS, they get their share first.

19 I think you heard questions along those lines. 20 That has nothing to do with the standard that you have to 21 consider in deciding this question. It's not a function of 22 what the other railroads got out of the ISS, the function of 23 what the MMA got out of the ISS. Because what the MMA got 24 out of the ISS is their operating revenue, that they earned, 25 and the agreement that was reached, the expectation of the

1 parties, both on the part of the MMA and on the part of the 2 Irving Railroads was that we would be paid immediately 3 following their receipt of payment.

4 That is the evidence. It is uncontroverted. It 5 establishes without a doubt that the expectation was that we 6 would paid out of current operating revenue.

7 Last point. Mr. Keach made a point, well, there 8 was such a delay with respect to our getting paid. The fact 9 that there was a delay again, Your Honor, is irrelevant to 10 the standard that the First Circuit has indicated you have 11 to evaluate in deciding this question.

12 If there wasn't any delay, if cash would've been 13 paid in advance, or on delivery, we wouldn't be here. Of 14 course there's going to be a delay in payment. Any time you 15 consider this question, there will be a delay in payment. 16 It doesn't matter how long the delay in payment occurred, 17 the question is, as the First Circuit has told us, what was 18 the expectation of the parties.

Did they expect the payment would be made out of current operating revenue, or did the claimant rely upon the general credit of the railroad? The evidence here is absolute, there is no evidence to support any conclusion at all other than the agreement and expectation of the parties, was that we would be paid out of current operating revenue, and therefore, we qualify as a six month claim entitled to

So I 4 think everybody's in agreement that the Boston and Maine 5 cases, establish the standard, right? 6 MR. LEPENE: Well, that the second Boston and 7 Maine establishes the standard. 8 THE COURT: And in the second Boston and Maine 9 case, I know it's unfair to do it this way, but just teeing 10 it up in case you wish to supplement your closing argument 11 in writing later --12 MR. LEPENE: Uh-huh. 13 THE COURT: -- but the Court says on page 1380, 14 "However, if payment is claimed under the Fosdick principle, 15 the existence of current debt fund must be demonstrated." 16 That -- is that an additional element that I need to worry 17 about? 18 MR. LEPENE: No, no, absolutely not, Your Honor. 19 The fact is, the First Circuit is unique, okay. The -- and 20 they were going through -- it's a wonderful opinion, it 21 takes a long time to parse through it, but -- and it's a 22 great history lesson in terms of 19th Century receivership 23 law. 24 The fact of the matter is, in the Second Circuit 25 and the Third Circuit, and these cases are cited in the

1	Boston Maine decision, they determined based upon Fosdick,
2	that in order for there to be six month priority, you had to
3	have a current expense fund. And because in, this was the
4	Penn Central and the New Haven, in those cases, there was no
5	current expense fund, therefore, no six month priority.
6	The district court in this, in the Boston Maine
7	case said, well, the Second Circuit, and Third Circuit,
8	they're right, got to have a current expense fund, and if
9	you don't have a current expense fund and there was none in
10	the Boston Maine case, you don't get the priority.
11	And what the First Circuit said is, that the
12	Second Circuit and Third Circuit got it wrong, that if you
13	look at all of the cases and it goes back to where the
14	Miltenberger versus Logansport case, and says there are two
15	separate alternative independent bases for establishing six
16	month priority.
17	Interestingly enough, the Fosdick case would have
18	supported, if there had been a current expense fund, we
19	would've been able to argue that we had an equitable lien,
20	and we would've been ahead of the Federal Railroad
21	Administration, potentially the Wheeling and Lake Erie, but
22	if there's no current expense fund you don't get an
23	equitable lien. That was the principle of restitution that
24	the Court in the Boston Maine case was talking about.
25	Miltenberger, the First Circuit says in Boston

1	Maine totally separate principle. It's a principle of
2	recognizing that claims that arise from services that are
3	provided within six months prior to reorganization are
4	entitled to be treated as administrative expense claims
5	because they enabled the railroad to continue to operate as
6	long as you meet the three standards; got to be incurred
7	within six months, got to be necessary for the operation of
8	the railroad, and the you know, the services that were
9	provided had to have been provided not in reliance on
10	general credit, but with the expectation that they would be
11	paid out of current operating revenue. And the evidence
12	here establishes all three.
13	THE COURT: That 1171(b) exceptioned how a
14	creditor would be normally treated, right?
15	MR. LEPENE: Absolutely.
16	THE COURT: And can you see an example of a
17	creditor that wouldn't satisfy most of those requirements?
18	MR. LEPENE: Absolutely. We have the rare case.
19	This is not going to open the floodgates to creditors coming
20	in and making claims. We are the rare case, based on the
21	evidence that you heard, most creditors, most creditors
22	simply ship their product or provide their services, they
23	don't go through the pains that the Irving Railroads went
24	through here.
25	There is no evidence with respect to seeking to

1	avoid credit risks. They just go ahead and they provide
2	their product, and so what are they doing, they are relying
3	on the general credit of the railroad.
4	If we had done that, Your Honor, we wouldn't be in
5	front of you, being able to assert that we're entitled to
6	priority. We didn't rely on the general credit. The
7	evidence establishes that we didn't rely on the general
8	credit. The evidence establishes that we expected to be
9	paid for when they got paid out of the ISS.
10	So what is the payments that they received out of
11	the ISS, that's their operating revenue. We meet the
12	standards, Your Honor, the evidence establishes it, and
13	we're entitled to priority.
14	THE COURT: Thank you very much.
15	MR. LEPENE: Thank you.
16	MR. KEACH: Thank you, Your Honor, I will be brief
17	as promised.
18	First, there is one thing we do agree on, the
19	Fosdick principle is not relevant. That was an alternative
20	theory that I think is dead in the First Circuit, so I think
21	we can agree on that.
22	And I
23	THE COURT: See, this was worthwhile. We got an
24	agreement.
25	MR. LEPENE: I agreed that he was good, Your

1	Honor.
2	MR. KEACH: And it's just going to get better. I
3	admire Mr. Lepene's ability to make silk from a sow's ear
4	here, but nothing could be further from the truth, in that
5	the evidence establishes as meeting any of the requirements
6	of 1171(b).
7	The only way that the Irving Railroads can even
8	with a straight face argue that they meet the 1171(b)
9	standards is by reducing it to no standard at all.
10	As Your Honor just pointed out, under their
11	articulation of the standard, everybody would qualify.
12	Every railroad that wasn't paid, every creditor extending
13	any kind of goods or services within the entire six month
14	period would qualify. That's not the standard.
15	Like most priorities, and incidentally, the Boston
16	Maine case definitively does not establish they're entitled
17	to an administrative claim. You can only get there by
18	actually ignoring what happened after the remand to the
19	First Circuit went to the district court, and as was true
20	back then, the district court confirmed the railroad's plan.
21	If you look at the description of the plan in that
22	case, and we've cited it in other places and here, the plan
23	itself lays out the priorities. Number one, the interlying
24	payments are not there, and number two, the 1171(b) priority
25	is subordinate to all of the other priority claims, and

	Page 125
1	subordinate to the administrative claims.
2	So that there is absolutely no basis upon which
3	you can read that set of cases to make 1171(b)
4	administrative claims. It's just a gross misreading of the
5	decision, but also not terrible relevant to what we're
6	talking about today.
7	Your Honor, if we're going to make any sense out
8	of the requirements of 1171(b), when a party extends credit
9	to the debtor on credit terms, that is an objective
10	indication, the only one I know of, that you are relying on
11	the credit of the railroad.
12	Now, Mr. Lepene in an attempt to rescue this case
13	says, well, they identified the sources of payment. Well,
14	that's true, except they identified virtually all of the
15	debtor's business as sources of payment, because if you look
16	at the amounts owed by the Irving Paper Companies and you
17	look what was coming into the interlying system, as Mr.
18	Hansen admitted, because that was his problem, you're
19	talking about the business.
20	But what Mr. Hansen said unequivocally, I asked
21	him, and he said the exact words that are in the transcript,
22	that he wasn't relying on the cash flow of the MMA at all.
23	Not at all.
24	Prior to the shipments of oil, he was relying on
25	his collateral arrangement. He said specifically if MMA had

1	refused to pay, he was protected by his offset right. He
2	was just going to take the Irving Paper money which he
3	controlled and pay himself. That is the absence of reliance
4	on our cash flow. He wasn't relying he didn't care
5	whether we paid him or not, because he was just going to
6	take the Irving Paper money and pay himself.
7	THE COURT: Didn't he say that it would be an
8	administrative an accounting nightmare for him to do so?
9	MR. KEACH: He said it would be messy, and it's
10	always messy when a creditor sets off, but that doesn't
11	change the fact that you're relying on your collateral.
12	It's messy when a secured creditor forecloses its
13	collateral, but I don't think any of us would say that a
14	secured creditor is relying on cash flow as opposed to its
15	collateral, right. They're just a secured creditor with
16	their foreclosure right, and however messy it might have
17	been, he made it very clear, he wanted nothing to do with
18	relying on either the credit of the company or the cash flow
19	or any other financial characteristic, because he was
20	protecting himself with his collateral arrangement. That
21	was why he was doing it. Largely because, as he admitted,
22	he had no understanding of the way ISS worked.
23	When the oil grew and it created a different set
24	of circumstances, his collateral was now insufficient, he
25	was under collateralized, they entered into the arrangement

1 they entered into. What was that arrangement? Well, first 2 and foremost as Judge Haynes' decision in (indiscernible) 3 points out, all right, this their share/our share stuff is 4 legally irrelevant. When you're not a petitioning member of 5 the ISS and the payment goes out to the ISS member from ISS, 6 they have dominion over that money, right.

7 So what were they really saying here? What they 8 were really saying when they entered into this arrangement, 9 as they documented, as proposed by the debtor, they were 10 extending 60 to 75 day credit terms. When the debt was 11 incurred, i.e., when they actually supplied the interlying 12 services from that time, to the time there was payment, was 13 60 to 75 days.

14 They went from 21-day credit terms per agreement 15 to 60 to 75 day credit terms per agreement, to be paid out 16 of ISS collection. They had absolutely no security that it 17 was going to be paid out of the ISS collection. That was 18 MMA's money, just like their other money was MMA's money, 19 they weren't designated to that source. MMA didn't even 20 have to pay them from that money. Because MMA, under Judge 21 Haynes' opinion and under the law had complete dominion over 22 that money.

All that arrangement did, now that Mr. Hansen understood the ISS system, was make him comfortable doing what he was doing before, extending credit to MMA. And this

Page 128 1 time, he was extending 60 to 75 day credit. To say that the 2 delay is irrelevant is to reduce the standard to no standard 3 at all.

If the credit terms don't matter, if the objective indication of an extension of credit and a reliance on creditworthiness is not that you've extended 60 to 75 day terms, then there is no standard. I have no idea what the standard would mean, if it doesn't matter what your credit terms are.

10 What it would mean is that anybody and everybody 11 who has a claim in six months would be making the very same 12 claim that they're making. It would be total floodgates, 13 and this case would be a very different case. I think it's 14 pretty telling, we had lots of people render goods and 15 services. We had lots of people performing interlying 16 services, we had lots of creditors. None of them are here 17 claiming 1171(b) priority but the Irving Railroad.

18 That's because it's a hard standard to meet. Most 19 people, as Mr. Lepene pointed out extend credit. And as Mr. 20 Hansen admitted, unequivocally, clearly and honestly on 21 cross-examination, that's exactly what Irving Railroads did. 22 They extended credit. And that's the be all and end all of 23 this decision. You don't have to go past one more fact, 24 they don't meet the test.

25

On top of which, Your Honor, with respect to the

Page 129 1 Bangor -- excuse me, the Bangor and Aroostook case and the 2 Boston and Maine case, and McClain, you know, I think we've 3 argued those ad nauseam, I think the Court can read them on 4 its own, I think they're very, very clear with respect to 5 the fact that interlying payments don't meet the test. And 6 there's a very simple reason.

7 The necessity test, the necessary to the operation 8 of the railroad test is not meant to be specific to that 9 railroad. It's an element of the public interest doctrine 10 and railroad reorganization. What's at interest there is 11 making sure the railroad continues to operate.

12 The test is, would the withholding of those 13 services, if there were no doctrine to protect them, shut 14 the railroad down, all right. So the people who get 1171(b) 15 priority are people like fuel suppliers. Right, because if 16 you don't protect fuel suppliers, they don't supply the 17 stuff that makes the railroad run.

18 If you -- the original 1171(b) payments before 19 there was a Bankruptcy Code that had a set of priorities in 20 it, the principle 1171(b) priority was called wages. 21 Because if you didn't pay the employees, their railroad shut 22 down. THE COURT: At a time when railroads were the true 23 24 arteries of --25 MR. KEACH: Correct.

1	THE COURT: most of our economy. Which isn't
2	the case anymore, right?
3	MR. KEACH: Sadly true. But, Your Honor, you have
4	to remember that most of the existing, most of the non-tax
5	priorities that are built into the 507 priorities now, under
6	the original railroad reorganizations were 1171(b) claims,
7	right.
8	So it's not just the stuff that sits out there
9	now, it's all those claims, employees, employee benefits,
10	all that stuff, deposits. The fact is, that if you look at
11	that universe, what's common about them is if you don't
12	protect those services, the railroad shuts down.
13	As Mr. Simpson and Mr. Hansen admitted, they
14	didn't have the right to refuse to exchange with the
15	railroad. They couldn't stop us from running over their
16	lines if they wanted to. That's the nature of modern
17	railroading, right, that's the system, because that's the
18	system that actually exists so that the railroads will run.
19	The ISS exists as a protective mechanism that
20	makes people, you know, be able to do that. The reason you
21	have that system. Irving opted out of that system for their
22	own convenience. Mr. Simpson's testimony was clear. They
23	had other people who would do it for them, right, Pan Am did
24	it for them, we did it for them, other people did it for
25	them, what did it prevent? It prevented them from hiring

1	somebody who sort of knew how to work the system. Mr.
2	Hansen admitted he didn't know. And it may be saved them a
3	couple of employees. But that was a choice.
4	The but not providing us with interlying
5	services was not a choice. More importantly even if it had
6	to be a choice, as was I think clearly testified to, didn't
7	end the railroad, right. We could continue to operate,
8	freight was going to continue to get every place it was
9	getting when we were using their system.
10	What happened to the oil after Lac Megantic until
11	market conditions basically have slowed down on a lot of
12	those shipments, it continued to arrive in Saint John, New
13	Brunswick. It arrived through a Canadian route. The system
14	wasn't shutdown, right.
15	For the reason you don't protect interlying
16	payments is because they don't dictate the operation of the
17	railroad. And they just don't simply fit with the policy
18	goals of 1171(b). If you allowed interlying payments to
19	have 1171(b) protection, you would also as I said earlier,
20	have eviscerated the necessity of Judge Haynes' trust
21	opinion. Who would have litigated that case? If the
22	interlying payments were already protected as an
23	administrative expense, what would've been the point.
24	I mean the point was, they didn't have that
25	protection. They're not an administrative expense. They're

1	not an 1171(b) priority. The hope of the railroads in that
2	case was that they could establish some kind of actual or
3	constructive trust. And as Judge Haynes property ruled,
4	there is no such trust. This is a system of debtor/creditor
5	relationships, and when bankruptcy intervenes, those
6	creditors who are representing of the interlying system, get
7	treated just like all the other unsecured creditors.
8	They're in the same place, in the same line as everybody
9	else.
10	And what's really at issue in this case, which is
11	always true of priority disputes, right, within the
12	bankruptcy priority system, is that this isn't a question of
13	whether, you know, I get to keep money that he wants. It's
14	a question of whether he takes money away from other
15	creditors. That's what this is about.
16	And as the fiduciary of this estate, it's my job
17	not to let that happen. And in this case, there's just no
18	1171(b) basis. I think the evidence, particularly Mr.
19	Hansen's, I think unequivocally honest testimony on cross,
20	means they don't meet any of the tests. Thank you, Your
21	Honor.
22	THE COURT: Thank you.
23	MR. LEPENE: Your Honor, may I respond just very
24	briefly?
25	THE COURT: Sure. But it'll be impossible to get

Page 133 1 significantly before 5. 2 MR. LEPENE: Well, I did go one minute over. I do 3 think Mr. Keach was a little long-winded, Your Honor, if I 4 must say. 5 THE COURT: Mr. Lepene, please. 6 MR. LEPENE: Thank you, Your Honor. 7 First of all the Boston and Maine and the district court opinion following the First Circuit's opinion in that 8 9 case with respect to the per diem claims, Mr. Keach again is 10 just flat out wrong. Go back and read the district court 11 opinion, as I'm sure the Court will. The per diem claims, 12 there were \$3 million of claims, they are specifically 13 recognized as being six month priority claims. 14 And the plan of reorganization specifically 15 provided that they would be paid in full and in cash. And 16 the Court, the district court indicated that it had entered 17 an order that provided that they would be paid in full and 18 in cash upon consummation of the plan, based on the Boston -19 - based on the First Circuit's opinion in the Boston and 20 Maine case. 21 With respect to the floodgates, I think I've 22 This does not open the floodgates. addressed that. This is a unique case, Your Honor, and the facts demonstrate that. 23 24 I won't belabor that point. 25 Again, the swap is separate from the oil

#### Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 134 of 169

1 shipments, so whatever the testimony is with respect to the 2 swap doesn't translate to what the decision, your decision 3 should be in evaluating the evidence as far as the oil 4 shipments.

5 Now, Mr. Keach's argument that there is, you know, 6 in effect, it just again, just opens the floodgates, that 7 the First Circuit's opinion can't be read the way I would 8 suggest that it must be read. The fact is if you accept Mr. 9 Keach's argument, there is no then distinction between what 10 is meant by reliance on general credit and providing 11 services with the expectation that they would be paid out of 12 current operating revenue.

13 All of the arguments that Mr. Keach makes in terms 14 of the various things that vendors do in assessing whether 15 or not to provide services, that all relates to whether or 16 not someone is relying on the general credit. That's not 17 the evidence that is before you here. And if you accept Mr. 18 Keach's argument, in effect, you are rendering the First 19 Circuit's opinion meaningless. They drew the distinction 20 between what is meant by having an expectation of payment 21 out of current operating revenue and providing services in 22 reliance on general credit, it must mean something. 23 This is the evidence that establishes what the 24 distinction is. It doesn't open the floodgates. 25 THE COURT: Okay.

#### Case 13-10670 Doc 1913-1 Filed 12/10/15 Entered 12/10/15 17:11:07 Desc Exhibit A - Hearing Transcript Page 135 of 169

Page 135 1 The notion that Irving could not MR. LEPENE: 2 refuse to accept the interchange of traffic, and therefore, 3 the services they provided were not necessary for the operation of the railroad, the same principles existed in 4 5 the Boston Maine, that's a case from the late '70s. 6 The same principles were in place, that the 7 railroads were required to accept the interchange of traffic, that was no issue. But notwithstanding that fact, 8 9 what did the First Circuit determine? It determined and it 10 specifically cited the interlying claims in the opinion as 11 being the type of claims that are entitled to be recognized 12 as priority six month priority claims.

And so this notion that this case can be resolved because we -- as we're required to accept the interchange of traffic has no bearing on the decision that you have to make in terms of evaluating the evidence.

17 And finally, as far as Bangor and Aroostook is 18 concerned, the fact that no one in that case raised the 19 issue of 1171(b) priority again is irrelevant. It's not 20 addressed in the case. So that decision doesn't stand at 21 all for the proposition that under the right set of 22 circumstances, as exists here, someone who provides services 23 with the expectation that payment would be made out of 24 current operating revenue is not entitled to priority. That 25 case doesn't stand for that proposition at all.

1	THE COURT: All right. Thank you. A question I
2	have for you, since you're the the burden's on you
3	initially at least, what do you want to do as far as do
4	you want to now leave it in my hands to make the decision
5	based on the evidence I've heard, and the arguments people
6	have made orally, do you want the chance to brief and put in
7	closing arguments in a short brief and submit it to me,
8	what's your preference?

9 MR. LEPENE: Well, again, I would like the 10 opportunity to review in greater detail than I had the 11 opportunity to review, the reply that Mr. Keach has 12 submitted. There are now two papers in front of you on 13 these issues, I only have one in front of you.

14So I would suggest either that you accord the15opportunity for post-trial briefs, or once I've had the16opportunity to review his paper in detail, perhaps I can17advise you and I don't know what Mr. Keach's preference is18in this regard, as to whether I would like the opportunity19to be able to submit anything further in writing.20But obviously I'm -- just will accept your

21 decision in that regard as to which alternative you would 22 prefer.

23 THE COURT: Thank you.

24 MR. LEPENE: Thank you.

THE COURT: Mr. Keach, what's your pleasure?

KEACH: 2 it, Your Honor, my suggestion is that we do simultaneous 3 post-trial briefs at our option, I mean, we can certainly choose not to. 4 5 THE COURT: Fair enough. 6 MR. KEACH: And I'm amenable to any time frame 7 that meets the Court's needs and that is convenient for 8 counsel. I appreciate we're getting into holidays and some 9 other things, so. 10 THE COURT: Right, but you know, an important 11 dispute, a large amount of money, why don't we do this then. 12 Why don't we establish simultaneous briefing schedules and 13 you can choose whether or not you wish to submit a post-14 trial brief. They don't have to be long, but if there's 15 evidence you want to point to, and if there's an analysis 16 you want to present, let's talk about timing. What's your 17 pleasure time on this? 18 MR. LEPENE: We have the holiday coming up, but 19 perhaps -- certainly no more than two weeks, and I could do 20 it in a shorter period of time if the Court were to desire 21 that. 22 THE COURT: No, that works out fine in accordance 23 with what I have coming up. I was even thinking more than 24 two weeks, but I don't want to push it out, if you don't 25 want it out.

1	MR. KEACH: Your Honor, originally I was most
2	concerned, as you know, about the distribution as a result
3	of the somewhat surprising developments in the district
4	court that distribution day has slipped a little bit. And I
5	know there's Thanksgiving, and then unfortunately I have to
6	be on the West Coast.
7	If I could suggest December 9, which is a
8	Wednesday, I think.
9	THE COURT: Yeah.
10	MR. KEACH: As the deadline for simultaneous
11	briefs, if that works for Mr. Lepene, that would work for
12	me.
13	THE COURT: I was actually thinking of four weeks,
14	which puts us right at what does that put us at, the
15	11th?
16	MR. KEACH: The 11th would be that Friday, that
17	would be fine, too, Your Honor.
18	MR. LEPENE: Is that four weeks, Your Honor?
19	THE COURT: I'm just making sure.
20	MR. LEPENE: That's three weeks I think, but
21	that's plenty of time.
22	THE COURT: Oh, I'm sorry, that's three weeks.
23	MR. LEPENE: Yeah, that would be plenty of time.
24	THE COURT: I cheated you out of a week.

Page 139 1 concerned. 2 THE COURT: Okav. MR. LEPENE: Your Honor, if you were prepared to 3 4 give us four weeks, I'll accept four weeks. 5 MR. KEACH: The only reason I would hesitate, and 6 I appreciate, I'm not so presumptuous to assume when you're 7 going to decide it after that, we're going to be making a 8 distribution probably on December 18th or the following 9 Monday, and since we're holding back funds for this, to the 10 extent that we can avoid that, I'd like to. So if we can do 11 this on the 10th, I would prefer it. 12 THE COURT: Okay. And let me just follow-through 13 on something. Let's say that I get the briefing in on --14 make up a date, whatever date, and I was able to issue a 15 decision on the 10th, we've only decided stage one of a two 16 stage thing here, that's if you win a hundred percent --17 Stage one is the only issue that MR. KEACH: 18 determines whether I have to withhold money or not. 19 THE COURT: Got it, okay. So I'll let you two --20 I'm happy either date. If we do it on the -- initially 21 you're talking about two weeks, Mr. Keach is pushing for 22 having it done on the -- you said the 10th? 23 MR. KEACH: December 10th is the Friday --24 Thursday. THE COURT: 25 Let's do -- 10th is a Thursday, so

Page 140 1 it's do it then, and the second thing is, right now it's 2 phrased as an all or nothing, and that's the way this is 3 before me, and that's how I'm going to treat it. I don't 4 see any way to do it but in an all or nothing fashion. 5 So --6 MR. KEACH: The only thing I would say to that, 7 Your Honor, and there are wo small repair charges. 8 THE COURT: Right, which are in the stipulation. 9 MR. KEACH: True to my argument as to what 10 actually qualifies and what doesn't --11 THE COURT: Right. 12 MR. KEACH: -- I think we're willing to admit that 13 those two repair charges would actually qualify, because 14 those are actual services that you -- one needs, right, need 15 to repair stuff. 16 THE COURT: So we've got about 7,000 that's not --17 MR. KEACH: So I think a \$7,000 gift that --18 THE COURT: Do you think on that, we could just wrap it up and settle it on that? The answer is no? 19 20 MR. LEPENE: He's smiling, Your Honor, and I'm 21 glad you're smiling. 22 MR.
