## POSITRON TECHNOLOGIES INC (PTI) FILES FOR CREDITOR PROTECTION UNDER CCAA

**MONTREAL (QUEBEC) CANADA — November 28, 2007 —** Positron Technologies Inc. (PTI), a leading contract manufacturer in Montréal that specializes in high technology electronic assemblies and products, announced today that it has voluntarily sought and obtained protection under the Companies' Creditors Arrangement Act (CCAA) pursuant to an Order from the Superior Court of Québec.

In early 2002, PTI was formed as a spin-off from Positron Inc. It has grown rapidly to become the leading Québec based contract manufacturer with a state-of-the-art manufacturing facility. Most of the products manufactured by PTI are exported. PTI has taken actions to reduce its overhead and grow its customer base and is in discussions with potential investors and merger candidates.

"We have taken this step in order to provide the Company with the time and flexibility necessary to attempt to finalize ongoing negotiations with potential investors" said Dominic Deveaux, Chief Restructuring Officer.

PTI confirmed that it will have sufficient funds on hand to enable it to continue normal operations during the Initial Order period and to make payments to suppliers and others for authorized goods and services received after the Initial Order was issued. PTI is committed to maintaining its high service levels to its customers during this period.

Today's announcement should reassure our employees, our customers and our suppliers that PTI can emerge from this difficult period as a strong competitor in the contract manufacturer industry.
